After the Budget we will implement the decision to create a consolidated Indigenous Australians' Health Programme and provide a Sub that seeks sign off of activity for 14-15 which will include components of activities that we have not yet sent up (due the Budget decision and impacts) and includes reconfigurations of programme elements to achieve funding reductions required as well as components settled in the Budget (such as indexation) etc. Some funding elements that grant recipients may ring about which will be sent up as part of this minute include:

VIBE Australia (indigenous media magazine, website etc)

Let me know if this isn't everything you need

cheers
