

Evaluation of Suicide Prevention Activities

Final Report
January 2014

Acknowledgments

This report would not have been possible without the cooperation and support of many. In particular, the authors (Australian Healthcare Associates) would like to thank all those directly involved in this evaluation who gave their time and made valuable contributions. This includes the staff and management of the 49 organisations funded to provide suicide prevention services; state/territory government and DoHA staff responsible for administering the projects; and the many external experts, peak body representatives and other stakeholders who were consulted during the course of the evaluation.

The Evaluation of Suicide Prevention Activities and this resultant Final Report were funded by the Australian Government Department of Health and Ageing (DoHA).

Contents

1	EXECUTIVE SUMMARY	7
1.1	Introduction and background	7
1.2	Objectives of the Evaluation	7
1.3	Methods	8
1.4	Caveats and limitations	9
1.5	Summary of findings	9
1.6	Opportunities for program improvement	13
1.7	Conclusions	15
2	INTRODUCTION	17
2.1	Contextualising the Report within the overall Evaluation	17
2.2	Evaluation Questions	18
2.3	Scope of this Report	18
3	BACKGROUND AND POLICY CONTEXT	19
3.1	Suicide in Australia	19
3.2	Policy milestones	19
3.3	National Suicide Prevention Strategy	20
3.4	Senate Community Affairs References Committee Inquiry into Suicide in Australia	24
3.5	Taking Action to Tackle Suicide	25
3.6	Implementation of the 2011 Delivering National Mental Health Reform package	26
3.7	Formation of the National Mental Health Commission and publication of its first Report Card	27
3.8	Release of the Roadmap for National Mental Health Reform 2012-2022	28
3.9	Development of the National Aboriginal and Torres Strait Islander Suicide Prevention Strategy	29
3.10	State/territory level suicide prevention policies	29
3.11	Scope, findings and learnings from previous NSPS/NSPP evaluations	30
3.12	Summary of policy context	32
4	METHODS	33
4.1	Background and data sources	33
4.2	Pre-existing project documentation/data	33
4.3	Documentation/data quality: implications	34
4.4	Project Survey	35
4.5	Stage 2 literature review	36
4.6	Stakeholder consultations	36
4.7	Desktop review of ATAPS Suicide Prevention service initiative and MindMatters initiative evaluations	38
4.8	Minimum Data Set	38
4.9	Data analysis protocols	39
4.10	Evaluability issues	39
5	PROFILE OF PROJECTS	41
5.1	Overview	41
5.2	Project approaches	42
5.3	Service delivery mechanisms	43
5.4	Target groups	43
5.5	LIFE Action Areas	44
5.6	Geographical reach of projects	47
5.7	Strategies and activities	47
5.8	Stability or change over time	49
5.9	Community acceptance	50
5.10	Collaboration	51
5.11	Project funding and workforce resources	52
5.12	Summary profile	57
6	SNAPSHOT OF PROJECT ACTIVITY: OCTOBER 2012 TO MARCH 2013	58
6.1	Scope of MDS data	58

Contents

6.2	Data quality.....	61
6.3	Program level data.....	61
6.4	Individual level contact or activity data.....	65
6.5	Group level activities.....	78
6.6	Target group analysis.....	91
6.7	Summary of key findings.....	98
7	FINDINGS: APPROPRIATENESS.....	100
7.1	Mix of projects.....	100
7.2	Equity of NSPP funding across regions.....	105
7.3	The evidence base for suicide prevention.....	106
7.4	Higher risk groups.....	106
7.5	Aboriginal and Torres Strait Islander populations.....	107
7.6	Universal approaches.....	109
7.7	Selective approaches.....	110
7.8	Indicated approaches.....	111
7.9	Approaches which may be harmful.....	112
7.10	Use of research and evidence in project design and implementation.....	112
7.11	Summary of key findings.....	114
8	FINDINGS: EFFECTIVENESS – OUTCOMES AND ACHIEVEMENTS.....	115
8.1	Need for outcome measures.....	115
8.2	Challenges of measuring outcomes for suicide prevention.....	116
8.3	Outcome measurement by NSPP projects.....	117
8.4	Achievement of project goals and objectives.....	119
8.5	Self-reported LIFE Action Area achievements.....	121
8.6	Unintended outcomes.....	128
8.7	Summary of key findings.....	130
9	FINDINGS: EFFECTIVENESS – ENABLERS AND BARRIERS.....	132
9.1	Enablers.....	132
9.2	Barriers and challenges.....	133
9.3	Improving effectiveness.....	137
9.4	Summary of key findings.....	140
10	FINDINGS: EFFICIENCY.....	141
10.1	Measuring efficiency in the suicide prevention context.....	141
10.2	Cost efficiency of projects.....	142
10.3	Sustainability of projects.....	148
10.4	Program administration.....	152
10.5	DoHA administrators' perspectives of NSPP program efficiency.....	154
10.6	Summary of key findings.....	156
11	POSITIONING THE NSPP IN AUSTRALIA'S SUICIDE PREVENTION EFFORTS.....	158
11.1	Introduction.....	158
11.2	The spectrum of suicide prevention activities in Australia.....	158
11.3	ATAPS Suicide Prevention service initiative.....	160
11.4	MindMatters.....	163
11.5	Integration and synergies between the NSPP and other suicide prevention activities.....	166
11.6	Gaps and opportunities in national suicide prevention efforts.....	168
11.7	Consistency with the Australian Government Mental Health Reform agenda.....	169
11.8	Potential consequences of not continuing the NSPP.....	170
11.9	Summary of key findings.....	171
12	IMPROVING OUTCOME MEASUREMENT.....	172
12.1	Conceptualising outcome measurement.....	172
12.2	Where to start.....	174
12.3	What, how and when to measure outcomes.....	174

Contents

12.4 Barriers to outcome measurement in the NSPP 180

12.5 Summary of possible improvements..... 182

13 SUMMARY OF FINDINGS, SUGGESTED PROGRAM IMPROVEMENTS AND CONCLUSIONS183

13.1 Evaluation overview..... 183

13.2 Appropriateness..... 184

13.3 Effectiveness 185

13.4 Efficiency 186

13.5 Positioning the NSPP in Australia's suicide prevention efforts 188

13.6 Opportunities for program improvement 189

13.7 Conclusions 190

13.8 Concluding observations 192

Appendices

- A Project Profiles
- B Key Evaluation Questions
- C Minimum Data Set – Values and Collection Points
- D NSPP Survey for Projects
- E Stage 2 Literature Review
- F Overarching Program Logic Model
