recommendations for the 1999 influenza vaccine based on
the recommendations of the World Health Organization:

• H1N1 a A/Beijing/262/95-like strain
• H3N2 a A/Sydney/5/97-like strain
• Ba B/Beijing/184/93-like strain.

This differs from the 1998 vaccine by the replacement of
A/Bayern/7/95-like strain with A/Beijing/262/95-like strain.
