

Review of Pharmacy Remuneration and Regulation
Submission #23; 30-Aug-2016; Pharmacist Proprietor

To Whom It May Concern,

I would like to request for the 1 Km short distance relocation to be changed. My pharmacy is very small in size and the nearest retail shops available is just under 1.5Km. There are no retail shops available for lease under 1 km. I hope to be able to relocate to the nearest retail shop available and still be 500m away from the nearest approved pharmacy (similar to the old short distance relocation).

If I could relocate, then I'd be able to extend my pharmacy services to include a vaccination room and stock more stock AND perhaps tender for the 24 hours super clinic. This way, my customers will have more access to a wider range of products and services than I currently have.

Thank you for reading this email! I hope you will consider this in your review.

Kind Regards,

...

(Pharmacist-Proprietor)
