11 October 2011

Dear Sirs

Breast Implants: Poly Implant Prothèse

We note from an update issued on your website, dated 1 October 2010, that the TGA has carried out tests on PIP implants, finding that they all comply with the relevant international standard.

We would be grateful if you could supply us with information regarding these tests. Please confirm which tests were carried out and provide details of the results.

In addition, we note that TGA were seeking further information from AFSSAPS in relation to their testing. Please confirm if any information has been provided by the French authorities, and supply us with a copy.

We confirm that this request is an application for the purposes of the Freedom of Information Act 1982, and we look forward to receiving a response within the relevant timeframe.

Yours faithfully
