Subject: Freedom of Information - PIP Implants [SEC=UNCLASSIFIED]

Dear [Redacted]

Further to our telephone conversation today seeking clarification of your (attached) request. I confirm that you are specifically seeking the product information for both the saline and gel filled implants as well as information revealing the number of women in Australia who have been implanted with the PIP implant.

As discussed I am proposing to revise the scope of your request to the following;

"the documents I am seeking are the product/patient information leaflets for the saline and gel filled PIP implants."

I would also like to confirm the link to the information on the TGA website relating to the PIP implant. The information is located at;

<http://www.tga.gov.au/safety/alerts-device-breast-implants-pip-120107.htm>

Once you have reviewed the information on the website please consider the suggested scope above and advise whether it will fulfil your requirements by responding to this email.

Please do not hesitate to contact me if you have any further questions.

Regards  
Shawn
