Dear Minister,

Further to your radio interview in Tasmania on the Tim Cox program on 15 May, 2008 in which you confirmed that there will be two GP Superclinics in Hobart; one at Bellerive and one at Sorell as separate campuses, I would like to have some time to talk to you about the Sorell (Lyons) aspect of this.

I would like my office to be part of the consultations that are to take place which I understand will be undertaken at the same time as Bellerive. There are also existing buildings in Sorell that are under-utilised.

I would be grateful for some time to see you in Canberra next week before any planning is started.

Yours sincerely,

Dick Adams
Federal Member for Lyons
