History: This message has been forwarded.

Dear colleagues,

Following our previous communications concerning the manufacturer Poly Implant Prothese (PIP), including NCAR FR-2010-03-30-007, you will find attached the information about tests results and Afssaps recommendations.

Decision about reimbursement will be decided by Social Security in France taking into account the recommendations.

A Press Conference was organised this morning at Afssaps and this information is now available for the general public. This document will be posted on Afssaps internet website.

<http://www.afssaps.fr/>

This email is sent to the "Vigilance" contacts and to the "COEN" contacts in order to reach as many people as possible.

Kind regards

AFSSAPS
