\$248,001 or more	3.4%	269,059
Total	100.0%	7,806,750

NOTES:

Tax filers information provided by Treasury and based on ATO data

PHI coverage information based on PHIAC data

Proposal will affect both hospital treatment and general treatment, but most people have combined products and so should be included in total hospital treatment coverage, and PHIAC hospital treatment data is more comparable to ATO data which is based on MLS (hospital treatment cover)

Private health insurance coverage
