

## Vaccine safety in Australia 2016–17

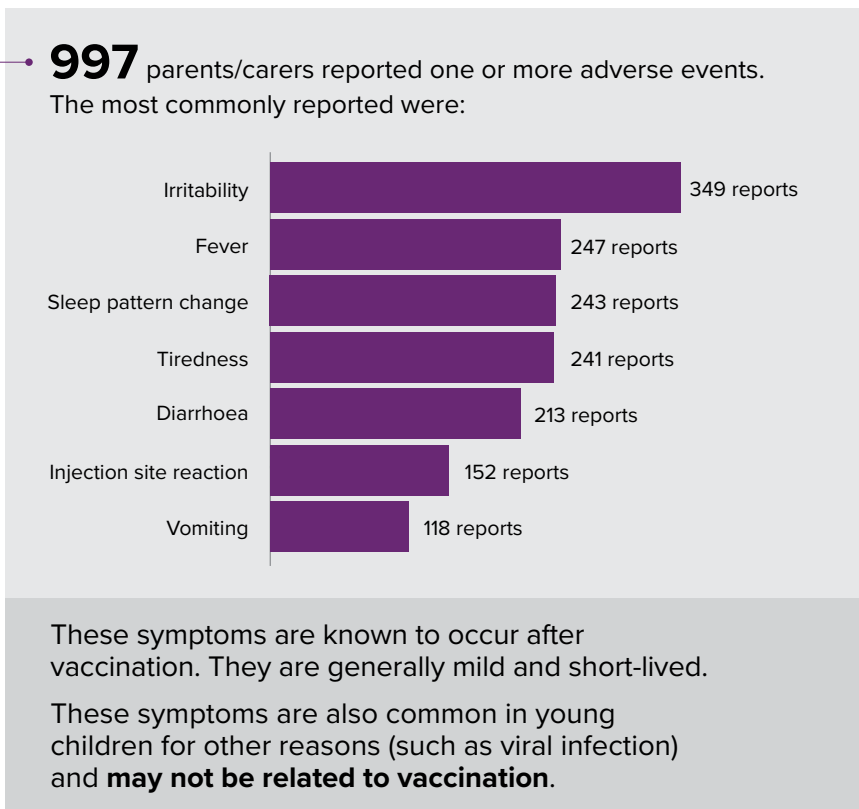

We actively monitor immunisation safety in Australia.

 **10,326** parents/carers responded to an SMS about their child's health a few days after their 2-month vaccinations.

who reported taking their child to a doctor or emergency department in the days after vaccination.

The adverse events they reported were similar to the types of adverse events reported overall.

## Vaccines given at 2 months in 2016–17
