

COVID-19 outbreaks in Australian residential aged care facilities

National snapshot

As at 8:00 am 9 March 2023 there are 931 active COVID-19 cases in 156 active outbreaks in residential aged care facilities across Australia. There have been 75 new outbreaks, 17 new resident deaths and 753 combined new resident and staff cases reported since 2 March 2023.

Table 1: Aged Care COVID-19 data as at 8.00am 9 March 2023¹

Category	Active ²	Previous 7 days	Cumulative Total	Previous 7 days
Outbreaks ³	156	12	13,202	75
Residential Aged Care Facilities affected	156	12	2,807	0
Resident Cases ⁴	651	16	130,648	548
Resident Deaths	N/A	N/A	5,131	17
Staff Cases	280	-7	80,640	205

Residential aged care homes with active outbreaks are included in Appendix 1.

Table 2: Overview of Active Outbreaks in Australia

	ACT	NSW	NT	QLD	SA	TAS	VIC	WA	Total
Total Facilities with outbreaks	3	48	1	47	14	2	29	12	156
Total number of active resident cases	7	166	1	224	35	16	165	37	651
Total number of active staff cases	0	98	0	86	21	2	48	25	280
Total Outbreaks Opened in Previous 7 Days	3	27	1	22	7	2	9	4	75
Total Outbreaks Closed in Previous 7 Days	0	20	1	17	9	0	11	5	63

¹ Outbreak opening and closure includes changes in the status of exposure sites to outbreaks (and vice versa), which are applied retrospectively to facility records. New case information can also change the status of a recovered site back to an active outbreak site. As a result, changes in active outbreak status may not align with day on day variations to active totals. These adjustments will also affect the number of cases in staff and residents reported each week.

² Active residents and staff cases are the total currently positive cases in active outbreaks

³ An outbreak is considered to be active pending advice from the relevant Public Health Unit. An outbreak is defined as at least 1 positive case in a resident or 2+ cases in staff.

⁴ Case numbers and numbers of deaths are dependent upon reporting from facilities and validation of deaths from state and territory governments. This is subject to change as further information is provided.

Figure 1: National Outbreak Trends in Aged Care

Figure 2: Trends in Aged Care Cases – December 2021 to Present

Mortality

For the period of 1 January 2022 to 6 March 2023, COVID-19 is recorded as the cause of death in 5.8 per cent of all deaths in permanent residents in aged care facilities.

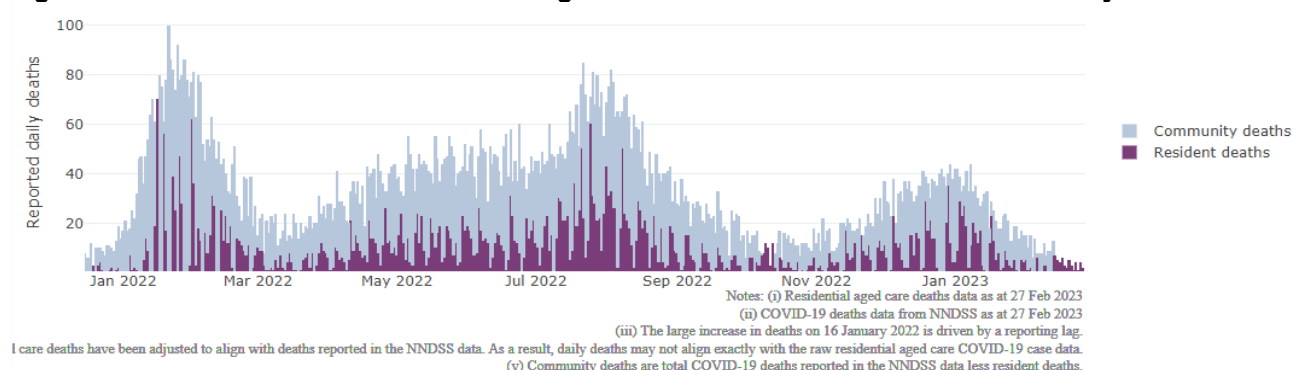

Since the beginning of the Omicron outbreak in mid December⁵ 2021, there have been 75,848 deaths in residential aged care from all causes (report period from 15 December 2021 to 6 March 2023)⁶. COVID-19 deaths account for 5.6 per cent of this figure.

Over the course of the pandemic, all-cause excess mortality in Residential Aged Care was below expected numbers in 2020, and within expected range in 2021.

⁵ The Omicron outbreak start date has been redefined from late November 2021 to mid December 2021. Changes have been made to align reporting with the start date of Omicron published in the Department's external facing Epidemiology report.

⁶ The Department is now accessing aged care deaths data from the SIEBEL dataset. Figures are live and subject to change. Source: Department of Health and Aged Care unpublished data / SIEBEL dataset.

Figure 3: COVID-19 Deaths in Residential Aged Care Facilities overlaid with Community deaths

Workforce in active residential aged care outbreaks

As at 10 March 2023, workforce surge staff have filled a total of 163,327 shifts in aged care services impacted by COVID-19, including 544 in the past 7 days. In the past 7 days (to 10 March) surge workforce providers have assisted 10 residential aged care homes. These shifts include roles for GPs, nurses, care workers, allied health workers, executive and ancillary staff. This includes:

Table 3: Workforce resources supplied to residential aged care facilities

Workforce provider	Total Shifts	Previous 7 days
Recruitment, Consulting and Staffing Association	101,407	133
Healthcare Australia (Workforce Surge)	13,575	21
Healthcare Australia (NACER)	2,295	N/A
Mable	2,711	N/A
Aspen Medical	21,527	66
HealthX	17,756	324
Torrens	4,056	N/A

The Australian Defence Force provided support to a total of 542 residential aged care homes between February and September 2022. The ADF deployment ceased on 30 September 2022.

Oral antiviral treatments

Distribution of the oral anti-viral Lagevrio (Molnupiravir) commenced on 6 February 2022 to all RACFs with outbreak sites prioritised for delivery. The National Medical Stockpile has deployed 48,269 treatment courses of Lagevrio (Molnupiravir) to aged care facilities.

54,310 prescriptions for Lagevrio (Molnupiravir) have been issued to residents in residential aged care facilities, with a further 3,076 prescriptions for Paxlovid (nirmatrelvir + ritonavir) also issued since 28 February 2022 and up to 5 March 2023.

Vaccination in Residential Aged Care Facilities

People living in residential aged care homes remain a high priority for the Government's COVID-19 vaccination program, with continued ongoing targeted support and increasing communications to maintain the high level of vaccination within this group.

The Government continues to provide all residential aged care facilities with access to COVID vaccination clinics to ensure residents have every opportunity to get vaccinated. As at 2 March 2023, with the 'Winter dose' program from 2022 finalised 85.2% of aged care residents estimated to be eligible for fourth doses have received a fourth dose.

The Department of Health and Aged Care is proactively working with Primary Health Networks to support residential aged care homes that may need assistance with facilitating COVID-19 vaccinations.

The 2023 COVID-19 vaccine booster program started on 20 February 2023. The new program has moved away from dose numbers and focusses on ensuring protection for aged care residents is topped up if it has been more than six months since the last immunising event (an infection or a vaccine dose), regardless of the number of doses.

In the initial phase of the 2023 booster rollout, the Government is targeting residential aged care homes that were early adopters of the fourth dose. In parallel, support is provided to individual aged care homes seeking assistance, linking them to their local Primary Health Network. The Department continues to monitor low dose sites and communicate to facilities there is no minimum number of residents required for COVID-19 vaccination clinics.

The Department is finalising reporting arrangements for the new booster program, moving away from dose numbers and focussing on recency of coverage. Specific information on national and state/territory vaccination uptake for the 2023 COVID-19 booster dose will be available soon.

As at 2 March 2023, a total of 638,705 doses of COVID-19 vaccines have been administered to residents in residential aged care homes. Information is now received from the Australian Immunisation Register, meaning reported numbers may differ from previous reports. Information from the Australian Immunisation Register provides a more accurate representation of residents currently in residential aged care.

Infection control and audits

The Aged Care Quality and Safety Commission (Commission) conducts a range of site and non-site activities to monitor and assess residential aged care services, including site audits and assessment contacts (site and non-site) (see Table 5 below). In August 2020, the Commission commenced an infection control monitoring (ICM) spot check program in all Australian jurisdictions.

The ICM spot check program involves on-site visits to residential aged care services, without an outbreak, to check compliance with personal protective equipment (PPE) and infection control arrangements. The purpose of the ICM spot check is to observe infection control practices, to ensure that staff, management and visitors were adhering to safe personal protective equipment protocols and to safe infection control arrangements as required under the quality standards.

As at 9 March 2023, the Commission had conducted 4,469 ICM spot checks to observe infection control practices and PPE protocols in residential aged care facilities.

Table 5: Total Quality Assessment and Monitoring Activities with residential services (including IPC), by type and month 1 March 2020 to 9 March 2023

Regulatory Activities	2019-20 (1 Mar - 30 Jun 2020)	2020-21	2021-22	2022-23 (to 9 March 2023)	Total
Site visits	318	3,452	1,733	2,106	7,609
Non-site activities	3,709	8,382	6,643	1,184	19,918
Total activities	4,027	11,834	8,376	3,290	27,527

Appendix 1: National residential aged care services with Active outbreaks COVID-19

Please note, information reported in this table has been directly reported to the Department of Health and Aged Care by residential aged care facilities. Total cases refers to all staff and resident cases associated with the active outbreak and may not reflect the count of currently active cases. Where numbers have been incorrectly reported, facilities are able to correct these in the COVID-19 Support Portal through My Aged Care. Where a facility is reporting less than six resident or staff cases or less than six deaths, data has been suppressed to protect the privacy of affected individuals (note that “n/p” indicates data is not provided to protect privacy).
