

Information for completing the device quote template

The templates below provide examples on what is required to be entered on the device quotes.

The **Government Subsidy** amount advises the client of the amount the Australian Government contributes towards their device and its maintenance. This does not include the fitting fee paid to the provider.

The **Cost to Client** fields should only include amounts the client is responsible for paying.

Providers can adapt the device quote template and delete lines that are not required on individual quotes.

Description	Details	Government Subsidy	Cost to Client (inc GST)
Left	Style, Model, Tier Category and Device Code	C1 BTE fitting: \$508.05 *device + dispensing fee C2 BTE fitting: \$482.10 *device + dispensing fee C3 fitting: \$417.00 *device cost only	NIL if fully subsidised. If partially subsidised, insert amount here.
