Background

This product was first listed on the SAS Schedule on 1 April 2016.

Clinical Place for the Product

Not applicable.

Financial Analysis

Substitute products are currently listed in subgroup 4(c) of the SAS Schedule at the same cost and maximum monthly quantity. It is therefore unlikely that there would be any budgetary impact for the SAS as a consequence of deleting this product.

Recommendation

As this was an administrative change, this application was considered by the Panel secretariat in line with the SAS *Application and Assessment Guidelines*. The Panel secretariat, noting equivalent products remained on the Schedule recommended the deletion of the entire product range (7 variants) of Dansac NovaLife2 Convex GX+ Wafer (SAS Code 80050E) listed in subgroup 4(c) of the SAS Schedule. The Panel noted the secretariat's recommendation at the May 2023 meeting.

Dansac is to advise stoma associations, ostomates, stomal therapy nurses and the Australian Council of Stoma Associations of the deletion. A period of approximately 6 months from the date of the recommendation (2 May 2023) should be given to allow users of the product to seek a suitable alternative and to enable stoma associations to manage their stock levels.

Context for Recommendation

The Panel secretariat, in accordance with the *SAS Application and Assessment Guidelines*, usually processes deletions to products. This includes consideration of whether appropriate alternative products remain available on the SAS Schedule. Suggested alternative products are noted by the secretariat but not referenced in the SAS Schedule.
