

Hearing well keeps you connected with family, friends, community & culture.

One in six people in Australia have problems with their hearing, but you can get help.

If you identify as an Aboriginal or Torres Strait Islander person and are 50 years and over, hearing checks are FREE through Hearing Australia, under the Community Service Obligations (CSO) component of the Hearing Services Program.

You may also be eligible for **FREE** hearing loss management. Help is available to keep you connected.

Ask your doctor or health worker about a hearing check or visit health.gov.au/hearing to find out more.
