Coloplast Comfeel – CT#01MAY2023

Variation on the Stoma Appliance Scheme

In 2018 the Stoma Product Assessment Panel (Panel) reviewed cleanser wipe products listed in subgroup 9(d) to correct anomalies in restrictions and inconsistencies of maximum monthly quantities.

The Panel recommended decreasing the maximum monthly quantity of cleanser wipe products to 60 units per month in subgroup 9(d) and to either include a R1 Restriction or change from a R2 to a R1 restriction to correct anomalies and standardise the restrictions of these products. A R1 Restriction requires authorisation from a Stomal Therapy Nurse, Nurse Practitioner, Registered Nurse or Registered Medical Professional.

Recommendation

The Panel considered the listing on the Stoma Appliance Scheme (SAS) Schedule of Coloplast Comfeel (SAS Code 3520G) in subgroup 9(d) and recommended decreasing the maximum monthly quantity from 100 to 60 units per month and to include a R1 restriction for this product. The product, including one variant, is currently listed at a unit price of \$0.477.

Product Code	Description
4715	Cleanser wipes, R1.

Background

This product was first listed on the SAS Schedule on 1 April 2011.

Financial Analysis

It is expected the variation will have a budgetary impact with an estimated save for the SAS which has been agreed by the Department of Finance.

Context for Recommendation

The Minister for Health and Aged Care has agreed to the recommendations, with changes to take effect on 1 October 2023.

Supplier Comment

The supplier noted the Panel recommendation.

Coloplast Brava Skin Cleanser Wipes – CT#02MAY2023

Variation on the Stoma Appliance Scheme

In 2018 the Stoma Product Assessment Panel (Panel) reviewed cleanser wipe products listed in subgroup 9(d) to correct anomalies in restrictions and inconsistencies of maximum monthly quantities.

The SPAP recommended decreasing the maximum monthly quantity of cleanser wipe products to 60 units per month in subgroup 9(d) and to either include a R1 Restriction or change from a R2 to a R1 restriction to correct anomalies and standardise the restrictions of these products. A R1 Restriction requires authorisation from a Stomal Therapy Nurse, Nurse Practitioner, Registered Nurse or Registered Medical Professional.

Recommendation

The Panel considered the listing on the Stoma Appliance Scheme (SAS) Schedule of Coloplast Comfeel (SAS Code 80125D) in subgroup 9(d) and recommended decreasing the maximum monthly quantity from 105 to 60 units per month and to change the restriction from a R2 to a R1 restriction for this product. The product, including one variant, is currently listed at a unit price of \$0.477.

Product Code	Description
12080	Brava Skin Cleanser Wipes – containing Pro Vitamin B5, R1.

Background

This product was first listed on the SAS Schedule on 1 March 2017.

Financial Analysis

It is expected the variation will have a budgetary impact with an estimated save for the SAS which has been agreed by the Department of Finance.

Context for Recommendation

The Minister for Health and Aged Care has agreed to the recommendations, with changes to take effect on 1 October 2023.

Supplier Comment

The supplier noted the Panel recommendation.
