# COVID-19 Vaccine Rollout

Data as at:  
05 Jul 2023

# Total COVID-19 vaccine doses

65+

**4,453,917**

individuals aged 65 and over have received a vaccination

18+

**19,635,941**

individuals aged 18 and over have received a vaccination

5-17

**2,579,727**

individuals aged 5 to 17 have received a vaccination

**68,247,323**

total vaccine doses administered

**+90,422** weekly increase

Please note that a person's COVID-19 infection history cannot be linked to their vaccination records at this time, which means eligibility estimates and population coverage rates are not available. State breakdown is based on the state in which a vaccine was physically administered, and may differ from a person's residential address.

# COVID-19 2023 Booster Doses

Data as at:  
05 Jul 2023

Total 2023 Booster Doses administered (18+)

**3,515,869**

2023 Booster Doses administered by age group

65+	50-64
<b>2,055,865</b>	<b>847,344</b>
30-49	18-29
<b>455,019</b>	<b>157,641</b>

Note: number of Booster Doses is not the same as number of people.#

## Number of people by time since last vaccination by age

	Less than six months ago	Six or more months ago	Unvaccinated##
65+	2,045,428	2,408,489	<500
50-64	843,764	3,695,589	87,733
30-49	457,015	6,383,769	230,758
18-29	167,462	3,634,425	225,429

## Number of 2023 Booster Doses administered by provider state###

Provider State	2023 Booster Doses (18+)	Weekly Increase
National	<b>3,515,869</b>	<b>+85,079</b>
ACT	102,047	+2,137
NSW	1,091,685	+25,508
NT	14,529	+468
QLD	633,835	+14,748
SA	272,014	+6,634
TAS	116,046	+2,901
VIC	936,074	+23,828
WA	349,639	+8,855

#The number of people with a dose will not match the number of doses administered. This can occur when a person receives a valid dose but then permanently leaves Australia, when a person receives multiple doses in a short time period (such as a specific health recommendation or a vaccine administration error), or in the case of data input errors into the Australian Immunisation Register.

##Unvaccinated population is based on the total Estimated Resident Population minus individuals who have a dose recorded in the Australian Immunisation Register.

###State breakdown is based on the state in which a vaccine was physically administered, and may differ from a person's residential address.

# COVID-19 2023 Booster Doses

Data as at: 05 Jul 2023

Number of 2023 Booster Doses\* administered by week# and age group##

\*The 2023 Booster program commenced on 20 February 2023. Some doses may have been administered before the official commencement date.

#Date is based on the date a dose was physically administered rather than the date the information was recorded/known.

##The number of doses by age group is based on an individual's current age and may be different from the age at vaccination.

The number of people with a dose will not match the number of doses administered. This can occur when a person receives a valid dose but then permanently leaves Australia, when a person receives multiple doses in a short time period (such as a specific health recommendation or a vaccine administration error), or in the case of data input errors into the Australian Immunisation Register.

Data as at: 05 Jul 2023

# Vaccinations by age and location

Time since individuals last vaccination by residential state (18+)

Residential state*	Less than six months ago	Six or more months ago	Unvaccinated#
<b>National</b>	<b>3,513,669</b>	<b>16,122,272</b>	<b>403,782</b>
ACT	89,498	255,726	10,048
NSW	1,097,677	5,072,499	150,022
NT	14,421	151,491	21,186
QLD	633,135	3,168,534	231,824
SA	270,841	1,078,418	81,636
TAS	114,469	317,946	20,611
VIC	928,144	4,138,975	66,558
WA	347,508	1,717,643	57,040
Unknown/Other	17,976	221,040	N/A

Time since individuals last vaccination by age (18+)

\*Residential state is based on a person's usual state of residence. In some cases, a residential address may be in Other Territories or unable to be linked to a state and result in unknown values.  
 #Unvaccinated population is based on the total Estimated Resident Population minus individuals who have a dose recorded in the Australian Immunisation Register.

Source: Australian Immunisation Register

# Aboriginal and Torres Strait Islander peoples

Data as at: 05 Jul 2023

**106,172**

First Nations individuals aged 5 to 17 have received a vaccination

**41,183**

First Nations individuals (18+) have received a 2023 Booster Dose

## Time since First Nations individuals last vaccination by state (18+)

Residential state*	Less than six months ago	Six or more months ago	Unvaccinated#
<b>National</b>	<b>41,955</b>	<b>392,248</b>	<b>70,487</b>
ACT	736	3,925	<500
NSW	14,819	118,162	17,642
NT	2,008	35,527	3,975
QLD	10,576	103,726	23,354
SA	2,250	17,642	4,334
TAS	2,361	11,165	1,603
VIC	4,370	31,391	3,548
WA	3,693	48,508	7,037
Unknown/Other	1,142	22,202	8,613

## Time since First Nations individuals last vaccination by age (18+)

\*Residential state is based on a person's usual state of residence. In some cases, a residential address may be in Other Territories or be unable to be linked to a state and result in unknown values.  
 Identification as Aboriginal and/or Torres Strait Islander in the Australian Immunisation Register is optional and the estimated population may be under reported.  
 #Unvaccinated population is based on the total First Nations population in the Australian Immunisation Register minus First Nations individuals who have a dose recorded in the Australian Immunisation Register.

Data as at: 05 Jul 2023

# Residential aged care vaccination rollout

**86,199 (56.8%)**  
 estimated eligible aged care residents with a COVID-19 2023 Booster Dose#

An additional **2,911** aged care residents have received a COVID-19 2023 Booster Dose since last week.

**107,668 (58.3%)**  
 aged care residents estimated with a vaccine dose or infection in the last six months (with recent immunity and not currently eligible for a 2023 Booster Dose)

Aged care COVID-19 2023 Booster Doses

Jurisdiction	2023 Booster Doses	
	% of estimated eligible residents vaccinated	Residents vaccinated
<b>National</b>	<b>56.8%</b>	<b>86,199</b>
ACT	66.3%	1,347
NSW	57.6%	27,927
NT	40.9%	<200
QLD	54.4%	16,654
SA	55.2%	7,197
TAS	66.8%	2,513
VIC	60.1%	24,099
WA	47.2%	6,320

#The estimated eligible population is made up of residents who have completed their COVID-19 primary course, and had their last COVID-19 vaccine dose or infection more than six months ago. As residential aged care populations are fluid, and case overlay is not exact, eligible populations for vaccination are an estimate only and there is an administrative lag with the aged care recipient data which is linked to Australian Immunisation Register data. Counts may fluctuate due to enhancements to data over time.

Source: Matched Australian Immunisation Register data of residents in permanent residential aged care homes

Data as at:  
25 June 2023

# National Disability Insurance Scheme (NDIS) reported vaccinations

Time since NDIS participants last vaccination by state (18+)

State	Less than six months ago	Six or more months ago	Unvaccinated <sup>#</sup>
<b>National</b>	<b>59,176</b>	<b>219,211</b>	<b>24,390</b>
ACT	1,588	3,551	282
NSW	18,313	67,120	6,774
NT	354	2,182	229
QLD	10,552	44,234	6,814
SA	4,771	17,962	2,565
TAS	1,884	4,973	597
VIC	16,503	57,932	5,110
WA	5,200	21,199	1,993

Includes all participants regardless of residence type.  
<sup>#</sup>Unvaccinated population is based on the total NDIS population linked in MADIP minus those who have a dose recorded in the Australian Immunisation Register.  
 Small negative changes may appear when compared with the previous report due to perturbation, data maturity and changes in population sizes.

Source: Australian Immunisation Register linked to the Multi-Agency Data Integration Project (MADIP)

# Individuals with Culturally and Linguistically Diverse\* (CALD) backgrounds

Data as at:  
25 June 2023

## 2023 Booster Doses administered (18+)

## Time since CALD individuals last vaccination by state (18+)

State	Born overseas			Speaks a language other than English at home		
	Less than six months ago	Six or more months ago	Unvaccinated <sup>#</sup>	Less than six months ago	Six or more months ago	Unvaccinated <sup>#</sup>
<b>National</b>	<b>493,206</b>	<b>3,663,207</b>	<b>211,567</b>	<b>339,619</b>	<b>3,459,998</b>	<b>209,722</b>
ACT	14,799	70,114	3,039	10,219	64,618	2,958
NSW	179,320	1,356,794	74,328	132,635	1,351,821	83,145
NT	1,977	27,060	1,169	1,282	23,991	1,307
QLD	62,687	475,654	41,927	36,694	384,403	30,883
SA	28,581	196,917	15,475	18,722	186,915	16,475
TAS	7,552	33,185	2,286	3,627	26,737	1,604
VIC	149,452	1,134,824	53,975	109,636	1,122,674	58,862
WA	48,516	362,601	18,976	26,503	293,172	14,125

\*Individuals with culturally and linguistically diverse (CALD) backgrounds are as reported in the 2021 Census and do not include Aboriginal and Torres Strait Islander peoples. The Born Overseas cohort excludes those born in the United Kingdom, Ireland and New Zealand. The data excludes those who have since departed Australia and deceased persons since the 2021 Census. There is an overlap across CALD cohorts where individuals may have reported they had more than one CALD characteristic in the 2021 Census.

<sup>#</sup>Unvaccinated population is based on the total cohort from the 2021 Census linked in MADIP minus those who have a dose recorded in the Australian Immunisation Register.

Counts may fluctuate due to enhancements to data over time.

Small negative changes may appear when compared with the previous report due to perturbation, data maturity and changes in population sizes.

# Explanatory notes

Please note that a person's COVID-19 infection history cannot be linked to their vaccination records at this time. This means we cannot estimate population eligibility or provide information on population coverage. For this reason, the number of boosters and the number of people based on their time since last vaccination have been provided.

**The Australian Immunisation Register (AIR):** the Australian Immunisation Register is a national register that records all vaccines given to people in Australia.

**Doses administered:** the total number of COVID-19 vaccination records in the Australian Immunisation Register. This includes all records, including vaccine administration errors, doses that were administered to people who are no longer active in Australia (relocated or passed away), and doses administered to people overseas who have since interacted with the Australian health system. The number of doses administered is different to the number of people with a dose. The number of doses administered is normally shown by the provider state, while the number of people with a dose is normally shown by a person's residential state.

**Time Since Last Vaccination:** the time that has elapsed since a person's last recorded COVID-19 vaccine, based on the administration date in the Australian Immunisation Register.

**2023 Booster Doses:** any booster dose administered since 01 January 2023, to individuals aged 18 and over.

**Age:** unless otherwise specified, age is calculated based on the age of a person at the time of reporting. It is possible for a person to move across cohorts over time however they are counted in only one cohort at the time of reporting.

**Aboriginal and Torres Strait Islander peoples:** the Aboriginal and Torres Strait Islander population refers to the number of individuals that identify as Aboriginal and Torres Strait Islander in the Australian Immunisation Register. Identifying as Aboriginal and/or Torres Strait Islander is optional, and the estimated population may be under reported. Numbers include all Aboriginal and Torres Strait Islander peoples who have received a vaccination and are not limited to those administered in an ACCHS setting.

**Other Priority Populations:** some cohorts of interest are unable to be identified in the Australian Immunisation Register alone. For information on these priority populations, please refer to the caveats with the data, as these use different data assets and may have different methodologies that are not directly comparable to the general population.

**International doses:** vaccination doses that are recognised by the Therapeutic Goods Administration (TGA) and were physically administered outside of Australia to people included in the Australian Immunisation Register. Please note that many of these doses are assigned to a default provider with a location in the Australian Capital Territory.

**Weekly increases:** are the difference between the reported total from last week and the total this week. This captures all new records uploaded into the Australian Immunisation Register, even if the doses were not physically administered during this time period (i.e., if a provider enters a record late).

**Update information:** vaccine data is sourced from the Australian Immunisation Register as at 11:59pm 05 July 2023 unless otherwise noted.
