Disclaimer

The MBS items overleaf are assigned to a single clinical category or list, generally the most relevant category. However, an MBS item may be relevant to more than one category. Insurers are required to provide cover for all hospital treatments within the 'scope of cover' of a clinical category included in a complying hospital policy.

The assignment of an item number to a category or list does not imply the service requires hospital treatment. Some services can be provided out of hospital. A treating medical practitioner will determine when an admission is required.

Clinical category and procedure type assignments are subject to change until the respective Private Health Insurance Amendments Rules are registered on the Federal Register of Legislation (www.legislation.gov.au)
