and Aged Care

**BE COVIDSAFE**

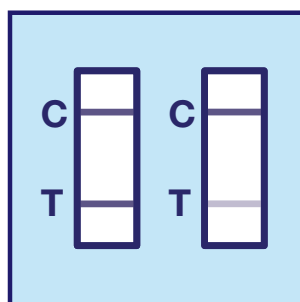

# WHAT DOES MY RAPID ANTIGEN TEST RESULT MEAN?

## NEGATIVE

It is likely you do not have COVID-19. If you continue to have symptoms stay home and take another rapid antigen test in a few days.

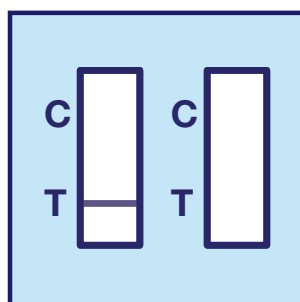

## POSITIVE

Try to stay home until your symptoms have gone to protect others. Avoid high-risk places like:

- hospitals (unless you need urgent medical care)
- aged care homes
- disability care settings.

## INVALID

Your test has not worked. Take another rapid antigen test if you have COVID-19 symptoms.

If you tested positive follow your local state or territory advice. For more information, visit [www.health.gov.au](https://www.health.gov.au), or call healthdirect on 1800 022 222. If you need an interpreter, call TIS National on 131 450 and ask to be transferred to healthdirect.
