Omnigon Flexima – BB#01OCTOBER2023

Proposed Variation on the Stoma Appliance Scheme

The applicant, B. Braun, sought a change in supplier name, company code and product name to the current listing of the Omnigon Flexima (SAS Code 9926K) in subgroup 1(b) of the Stoma Appliance Scheme (SAS) Schedule. The product, including 10 variants, is currently listed at a unit price of \$2.735, with a pack size of 30 and a maximum monthly quantity of 90 units.

Variations to listings

Current Supplier Name	New Supplier Name	Current Company Code	New Company Code	New Product Name
Omnigon	B. Braun	44212	44212P	B. Braun Flexima® Closed Flat
Omnigon	B. Braun	44015	044015P	B. Braun Flexima® Closed Flat

Omnigon	B. Braun	44170	044170P	B. Braun Flexima® Closed Flat

Background

This product was first listed on the SAS Schedule on 1 April 2011.

Financial Analysis

The variations do not include any changes to the price or maximum quantity of the current product range and are unlikely to have a budgetary impact for the SAS.

Recommendation

As this was an administrative change, this application was considered by the Stoma Product Assessment Panel (the Panel) secretariat in line with the *SAS Application and Assessment Guidelines*. The Panel secretariat recommended the change to the supplier name, company code and product name for the current product range (10 variants) for Omnigon Flexima (SAS Code 9926K) listed in subgroup 1(b) of the SAS Schedule at the unit price of \$2.735, with a pack size of 30 and a maximum monthly quantity of 90 units. The SAS Code will remain unchanged. The Panel noted the secretariat's recommendation at the October 2023 meeting.

Context for Recommendation

The Panel secretariat, in accordance with the *SAS Application and Assessment Guidelines*, can process variations to products where there is no change to classification, pricing,

Omnigon	B. Braun	936815	936815P	B. Braun Flexima® 3S Flat

Background

This product was first listed on the SAS Schedule on 1 April 2016.

Financial Analysis

The variations do not include any changes to the price or maximum quantity of the current product range and are unlikely to have a budgetary impact for the SAS.

Recommendation

As this was an administrative change, this application was considered by the Stoma Product Assessment Panel (the Panel) secretariat in line with the *SAS Application and Assessment Guidelines*. The Panel secretariat recommended the change to the supplier name, company code and product name for the current product range (10 variants) for Omnigon Flexima 3S (SAS Code 80091H) listed in subgroup 4(a) of the SAS Schedule at the unit price of \$4.142, with a pack size of 5 and a maximum monthly quantity of 30 units. The SAS Code will remain unchanged. The Panel noted the secretariat's recommendation at the October 2023 meeting.

Context for Recommendation

The Panel secretariat, in accordance with the *SAS Application and Assessment Guidelines*, can process variations to products where there is no change to classification, pricing,

maximum quantity or composition. All recommendations are subject to Government approval.

Omnigon	B. Braun	937615	937615P	B. Braun Flexima® 3S Convex

Background

This product was first listed on the SAS Schedule on 1 April 2016.

Financial Analysis

The variations do not include changes to the price or maximum quantity of the current product range and are unlikely to have a budgetary impact for the SAS.

Recommendation

As this was an administrative change, this application was considered by the Stoma Product Assessment Panel (the Panel) secretariat in line with the *SAS Application and Assessment Guidelines*. The Panel secretariat recommended the change to the supplier name, company code and product name for the current product range (5 variants) for Omnigon Flexima 3S (SAS Code 80078P) listed in subgroup 4(c) of the SAS Schedule at the unit price of \$5.840, with a maximum monthly quantity of 20 units and pack size of 5. The Panel noted the secretariat's recommendation at the October 2023 meeting.

Context for Recommendation

The Panel secretariat, in accordance with the *SAS Application and Assessment Guidelines*, can process variations to products where there is no change to classification, pricing, maximum quantity or composition. All recommendations are subject to Government approval.

The applicant, B. Braun, sought the deletion of the entire product range of the current listing of Omnigon BBraun Flexima Active (SAS Code 80143C) in subgroup 1(c) of the Stoma Appliance Scheme (SAS) Schedule, as the product was never manufactured or supplied. The product, with 6 variants, is currently listed at a unit price of \$4.433 with a pack size of 10 and a maximum monthly quantity of 60 units. The current supplier, Omnigon, has agreed to B. Braun requesting deletion of this product.

Substitute products

The product sponsor did not nominate a substitute product; however, there are alternative products currently listed for use in subgroup 1(c) of the SAS Schedule.

Variants to be deleted

Supplier	Company Code	Product Name
Omnigon	4610725	Omnigon B.Braun Flexima® Active
Omnigon	4610730	Omnigon B.Braun Flexima® Active
Omnigon	4610735	Omnigon B.Braun Flexima® Active
Omnigon	4610740	Omnigon B.Braun Flexima® Active
Omnigon	4611716	Omnigon B.Braun Flexima® Active
Omnigon	4612716	Omnigon B.Braun Flexima® Active

Background

This product was first listed on the SAS Schedule on 1 May 2017.

Clinical Place for the Product

Not applicable.

Financial Analysis

Substitute products are currently listed in subgroup 1(c) of the SAS Schedule at the same cost and maximum monthly quantity. It is therefore unlikely that there would be any budgetary impact for the SAS as a consequence of deleting this product.

Recommendation

As this was an administrative change, this application was considered by the Stoma Product Assessment Panel (the Panel) secretariat in line with the *SAS Application and Assessment Guidelines*. The Panel secretariat noted there are equivalent products remaining on the Schedule and recommended the deletion of the entire product range of Omnigon BBraun Flexima Active (SAS Code 80143C) listed in subgroup 1(c) of the SAS Schedule.

B. Braun is to advise stoma associations, ostomates, stomal therapy nurses and the Australian Council of Stoma Associations of the deletion. A period of approximately 6 months from the date of the recommendation (24 October 2023) should be given to allow users of the product to seek a suitable alternative and to enable stoma associations to manage their stock levels.

Context for Recommendation

The Panel secretariat, in accordance with the *SAS Application and Assessment Guidelines*, usually processes deletions to products. This includes consideration of whether appropriate alternative products remain available on the SAS Schedule.

Applicant's Comment

The applicant noted the recommendation.

B. Braun Flexima Closed Flat – BB#28OCTOBER2023

Proposed Listing on the Stoma Appliance Scheme

The applicant, B. Braun, sought listing of 4 additional variants of B. Braun Flexima® Closed Flat in subgroup 1(b) of the Stoma Appliance Scheme (SAS) Schedule. The 4 additional variants were proposed for listing at a unit price of \$2.735, with a pack size of 30 and a maximum monthly quantity of 90 units.

Comparator

The applicant nominated Omnigon Flexima (SAS Code 9926K) as the comparator. The comparator product (10 variants) is currently listed in subgroup 1(b) of the SAS Schedule at the unit price of \$2.735, with a pack size of 30 and a maximum monthly quantity of 90 units.

Background

This application was to add 4 variants to the existing product range of Omnigon Flexima, to be renamed the B. Braun Flexima Closed Flat (SAS Code 9926K). The product was first listed on the SAS Schedule on 1 April 2011.

The applicant has requested a variation to this product (BB#01OCTOBER2023) to change the supplier to B. Braun and the product name to B. Braun Flexima Closed Flat. This change has been recommended by the Stoma Product Assessment Panel (the Panel) secretariat and the secretariat recommendation was noted by the Panel at the October 2023 meeting. Subject to Government agreement, this change will be implemented.

Clinical Place for the Product

The proposed product is for users requiring a one piece closed pouch with a pre-cut hydrocolloid flat baseplate.

Clinical Analysis

The Panel noted that this application was to add 4 variants to an existing product range to include an additional pouch size of 200ml. The product codes for the new variants are to be added under the existing SAS code 9926K.

Economic Analysis

The Panel noted that the listing of 4 additional variants of this product at the same price and the same maximum monthly quantity as currently listed products in the same subgroup will result in the same monthly cost to the SAS.

Financial Analysis

Listing 4 additional variants of this product is unlikely to have a budgetary impact for the SAS as it will be listed at the same price and the same maximum monthly quantity as currently listed products in the same subgroup, resulting in the same monthly cost to the SAS.

Panel Recommendation

The Panel recommended the listing of 4 additional variants of the B. Braun Flexima Closed Flat in subgroup 1(b) of the SAS Schedule, at the unit price of \$2.735, with a pack size of 30 and a maximum monthly quantity of 90 units.

Context for Recommendation

The Panel provides advice on whether stoma products should be subsidised and, if so, the conditions of their subsidisation in Australia. Applications are considered in this context. The Panel is an advisory committee and as such its recommendations are non-binding on Government. All Panel recommendations are subject to Government approval.

Applicant's Comment

The applicant noted the recommendation.

B. Braun Flexima Roll 'Up Flat – BB#29OCTOBER2023

Proposed Listing on the Stoma Appliance Scheme

The applicant, B. Braun, sought listing of one additional variant to the B. Braun Flexima Roll 'Up Flat in subgroup 2(a) of the Stoma Appliance Scheme (SAS) Schedule. The one additional variant was proposed for listing at a unit price of \$4.674, with a pack size of 30 and a maximum monthly quantity of 30 units.

Comparator

The applicant nominated Omnigon Almarys Flexima (SAS Code 9914T) as the comparator. The comparator product (11 variants) is currently listed in subgroup 2(a) of the SAS Schedule at the unit price of \$4.674, with a pack size of 30 and a maximum monthly quantity of 30 units.

Background

This application was to add one variant to the existing product range of Omnigon Almarys Flexima, to be renamed the B. Braun Flexima Roll 'Up Flat (SAS Code 9914T). The product was first listed on the SAS Schedule on 1 April 2011.

The applicant has requested a variation to this product (BB#04OCTOBER2023) to change the supplier to B. Braun and the product name to B. Braun Flexima Roll 'Up Flat. This change has been recommended by the Stoma Product Assessment Panel (the Panel) secretariat and the secretariat recommendation was noted by the Panel at the October 2023 meeting. Subject to Government agreement, this change will be implemented.

Clinical Place for the Product

The proposed product is for users requiring a one-piece drainable pouch with a cut to fit hydrocolloid flat baseplate.

Clinical Analysis

The Panel noted that this application was to add one variant to an existing product range to include an additional size pouch of 710ml. The product code for the new variant is to be added under the existing SAS code 9914T.

Economic Analysis

The Panel noted that the listing of an additional variant of this product at the same price and the same maximum monthly quantity as currently listed products in the same subgroup will result in the same monthly cost to the SAS.

Financial Analysis

Listing of an additional variant of this product is unlikely to have a budgetary impact for the SAS as it will be listed at the same price and the same maximum monthly quantity as currently listed products in the same subgroup, resulting in the same monthly cost to the SAS.

Panel Recommendation

The Panel recommended the listing of one additional variant of the B. Braun Flexima® Roll 'Up Flat in subgroup 2(a) of the SAS Schedule, at the unit price of \$4.674, with a pack size of 30 and a maximum monthly quantity of 30 units.

Context for Recommendation

The Panel provides advice on whether stoma products should be subsidised and, if so, the conditions of their subsidisation in Australia. Applications are considered in this context. The Panel is an advisory committee and as such its recommendations are non-binding on Government. All Panel recommendations are subject to Government approval.

Applicant's Comment

The applicant noted the recommendation.

B. Braun Flexima Closed Convex – BB#30OCTOBER2023

Proposed Listing on the Stoma Appliance Scheme

The applicant, B. Braun, sought listing of 2 additional variants of the B. Braun Flexima® Closed Convex in subgroup 1(c) of the Stoma Appliance Scheme (SAS) Schedule. The 2 additional variants were proposed for listing at a unit price of \$4.433, with a pack size of 10 and a maximum monthly quantity of 60 units.

Comparator

The applicant nominated Omnigon B.Braun Flexima Closed Convex (SAS Code 3952B) as the comparator. The comparator product (4 variants) is currently listed in subgroup 1(c) of the SAS Schedule at the unit price of \$4.433, with a pack size of 10 and a maximum monthly quantity of 60 units.

Background

This application was to add 2 variants to the existing product range of Omnigon B.Braun Flexima Closed Convex, to be renamed B. Braun Flexima Closed Convex (SAS Code 3952B). The product was first listed on the SAS Schedule on 1 October 2012.

The applicant has requested a variation to this product (BB#02OCTOBER2023) to change the supplier to B. Braun and the product name to B. Braun Flexima Closed Convex. This change has been recommended by the Stoma Product Assessment Panel (the Panel) secretariat and the secretariat recommendation was noted by the Panel at the October 2023 meeting. Subject to Government agreement, this change will be implemented.

Clinical Place for the Product

The proposed product is for users requiring a one piece closed pouch with a cut to fit hydrocolloid flat baseplate.

Clinical Analysis

The Panel noted that this application was to add 2 variants to an existing product range to include products with a thinner baseplate material of 1.2mm and a smaller baseplate opening size of 15-35mm. The product code for the new variant is to be added under the existing SAS code 3952B.

The Panel recommended that the maximum monthly quantity should be 90 units rather than 60 units, as ostomates would be likely to need to change this product 3 times per day. The Panel recommended that the increased maximum quantity should apply to all variants of the product.

Economic Analysis

While the Panel recommended an increase to the maximum quantity, the Panel considered that the increased quantity would be unlikely to result in increased expenditure. Because ostomates should be changing this product 3 times per day, it is highly likely that ostomates have requesting additional supplies of products above the maximum quantity. The listing of

2 additional variants of this product at the same price, and the increase to the maximum monthly quantity for existing variants to 90 in line with clinical recommendations, is expected to result in the same monthly cost to the SAS.

Financial Analysis

Listing additional variants of this product is unlikely to have a budgetary impact for the SAS as it will be listed at the same price as currently listed products in the same subgroup. Increasing the maximum monthly quantity to 90 for all variants of the product will reflect actual usage of the product based on clinical recommendations, and is expected to result in the same monthly cost to the SAS.

Panel Recommendation

The Panel recommended the listing of 2 new variants of B. Braun Flexima Closed Convex in subgroup 1(c) on the SAS Schedule with 2 variants, at the unit price of \$4.433 and a pack size of 10. The Panel recommended the maximum monthly quantity for all variants of the product should be 90 units rather than 60 units.

Context for Recommendation

The Panel provides advice on whether stoma products should be subsidised and, if so, the conditions of their subsidisation in Australia. Applications are considered in this context. The Panel is an advisory committee and as such its recommendations are non-binding on Government. All Panel recommendations are subject to Government approval.

Applicant's Comment

The applicant noted the recommendation.

B. Braun Flexima Active Roll 'Up Flat – BB#31OCTOBER2023

Proposed Listing on the Stoma Appliance Scheme

The applicant, B. Braun, sought listing of an additional variant of B. Braun Flexima Active Roll 'Up Flat in subgroup 2(a) of the Stoma Appliance Scheme (SAS) Schedule. The one additional variant was proposed for listing at a unit price of \$4.674, with a pack size of 30 and a maximum monthly quantity of 30 units.

Comparator

The applicant nominated Omnigon Flexima Active Drainable (SAS Code 80022Q) as the comparator. The comparator product (12 variants) is currently listed in subgroup 2(a) of the SAS Schedule at the unit price of \$4.674, with a pack size of 30 and a maximum monthly quantity of 30 units.

Background

This application was to add one variant to the existing product range of Omnigon Flexima Active Drainable (SAS Code 80022Q). The product was first listed on the SAS Schedule on 1 May 2015.

The applicant has requested a variation to this product (BB#06OCTOBER2023) to change the supplier to B. Braun and the product name to B. Braun Flexima Active Roll 'Up Flat. This change has been recommended by the Stoma Product Assessment Panel (the Panel) secretariat and the secretariat recommendation was noted by the Panel at the October 2023 meeting. Subject to Government agreement, this change will be implemented.

Clinical Place for the Product

The proposed product is for users requiring a one-piece drainable pouch with a cut to fit hydrocolloid flat baseplate.

Clinical Analysis

The Panel noted that this application was to add one variant to an existing product range to include a transparent pouch material in the 960ml pouch rather than opaque which is currently listed. The product code for the new variant is to be added under the existing SAS code 80022Q.

Economic Analysis

The Panel noted that the listing of an additional variant of this product at the same price and the same maximum monthly quantity as currently listed products in the same subgroup will result in the same monthly cost to the SAS.

Financial Analysis

Listing of an additional variant of this product is unlikely to have a budgetary impact for the SAS as it will be listed at the same price and the same maximum monthly quantity as

currently listed products in the same subgroup, resulting in the same monthly cost to the SAS.

Panel Recommendation

The Panel recommended that one additional variant of the B. Braun Flexima® Active Roll 'Up Flat be listed in subgroup 2(a) of the SAS Schedule, at the unit price of \$4.674, with a pack size of 30 and a maximum monthly quantity of 30 units.

Context for Recommendation

The Panel provides advice on whether stoma products should be subsidised and, if so, the conditions of their subsidisation in Australia. Applications are considered in this context. The Panel is an advisory committee and as such its recommendations are non-binding on Government. All Panel recommendations are subject to Government approval.

Applicant's Comment

The applicant noted the recommendation.

B. Braun Flexima Key Closed – BB#33OCTOBER2023

Proposed Listing on the Stoma Appliance Scheme

The applicant, B. Braun, sought listing of 2 additional variants of B. Braun Flexima Key Closed in subgroup 5(b) of the Stoma Appliance Scheme (SAS) Schedule. The 2 additional variants were proposed for listing at a unit price of \$1.564, with a pack size of 30 and a maximum monthly quantity of 90 units.

Comparator

The applicant nominated Omnigon Flexima Key (SAS Code 9808F) as the comparator. The comparator product (6 variants) is currently listed in subgroup 5(b) of the SAS Schedule at the unit price of \$1.564, with a pack size of 30 and a maximum monthly quantity of 90 units.

Background

This application was to add 2 variants to the existing product range of Omnigon Flexima Key, to be renamed B. Braun Flexima Key Closed (SAS Code 9808F). The product was first listed on the SAS Schedule on 1 April 2011.

The applicant has requested a variation to this product (BB#19OCTOBER2023) to change the supplier to B. Braun and the product name to B. Braun Flexima Key Closed. This change has been recommended by the Stoma Product Assessment Panel (the Panel) secretariat and the secretariat recommendation was noted by the Panel at the October 2023 meeting. Subject to Government agreement, this change will be implemented.

Clinical Place for the Product

The proposed product is for users requiring a two-piece closed pouch.

Clinical Analysis

The Panel noted that this application was to add 2 variants to an existing product range to include a transparent pouch material for the 420ml and 550ml pouch rather than opaque which is currently listed. The product codes for the new variants are to be added under the existing SAS code 9808F.

Economic Analysis

The Panel noted that the listing of 2 additional variants of this product at the same price and the same maximum monthly quantity as currently listed products in the same subgroup will result in the same monthly cost to the SAS.

Financial Analysis

Listing of 2 additional variants of this product is unlikely to have a budgetary impact for the SAS as it will be listed at the same price and the same maximum monthly quantity as currently listed products in the same subgroup, resulting in the same monthly cost to the SAS.

Panel Recommendation

The Panel recommended that 2 additional variants of the B. Braun Flexima® Key Closed be listed in subgroup 5(b) of the SAS Schedule, at the unit price of \$1.564, with a pack size of 30 and a maximum monthly quantity of 90 units.

Context for Recommendation

The Panel provides advice on whether stoma products should be subsidised and, if so, the conditions of their subsidisation in Australia. Applications are considered in this context. The Panel is an advisory committee and as such its recommendations are non-binding on Government. All Panel recommendations are subject to Government approval.

Applicant's Comment

The applicant noted the recommendation.

B. Braun Flexima Key Roll' Up – BB#34OCTOBER2023

Proposed Listing on the Stoma Appliance Scheme

The applicant, B. Braun, sought listing of 2 additional variants of B. Braun Flexima® Key Roll' Up in subgroup 6(b) of the Stoma Appliance Scheme (SAS) Schedule. The additional 2 variants of the product were proposed for listing at a unit price of \$3.504, with a pack size of 30 and a maximum monthly quantity of 30 units.

Comparator

The applicant nominated Omnigon Flexima Key (SAS Code 9807E) as the comparator. The comparator product (6 variants) is currently listed in subgroup 6(b) of the SAS Schedule at the unit price of \$3.504, with a pack size of 30 and a maximum monthly quantity of 30 units.

Background

This application was to add 2 variants to the existing product range of Omnigon Flexima Key, to be renamed B. Braun Flexima Key Roll 'Up (SAS Code 9807E). The product was first listed on the SAS Schedule on 1 April 2011.

The applicant has requested a variation to this product (BB#17OCTOBER2023) to change the supplier to B. Braun and the product name to B. Braun Flexima Key Roll 'Up. This change has been recommended by the Stoma Product Assessment Panel (the Panel) secretariat and the secretariat recommendation was noted by the Panel at the October 2023 meeting. Subject to Government agreement, this change will be implemented.

Clinical Place for the Product

The proposed product is for users requiring a two-piece drainable pouch.

Clinical Analysis

The Panel noted that this application was to add 2 variants to an existing product range to include a 610ml pouch in opaque and transparent pouch material. The product codes for the new variants are to be added under the existing SAS code 9807E.

Economic Analysis

The Panel noted that the listing of 2 additional variants of this product at the same price and the same maximum monthly quantity as currently listed products in the same subgroup will result in the same monthly cost to the SAS.

Financial Analysis

Listing of 2 additional variants of this product is unlikely to have a budgetary impact for the SAS as it will be listed at the same price and the same maximum monthly quantity as currently listed products in the same subgroup, resulting in the same monthly cost to the SAS.

Panel Recommendation

The Panel recommended that 2 additional variants of the B. Braun Flexima® Key Roll' Up be listed in subgroup 6(b) of the SAS Schedule, at the unit price of \$3.504, with a pack size of 30 and a maximum monthly quantity of 30 units.

Context for Recommendation

The Panel provides advice on whether stoma products should be subsidised and, if so, the conditions of their subsidisation in Australia. The Panel is an advisory committee and as such its recommendations are non-binding on Government. All Panel recommendations are subject to Government approval.

Applicant's Comment

The applicant noted the recommendation.

B. Braun Flexima Key Maxi Drainable – BB#35OCTOBER2023

Proposed Listing on the Stoma Appliance Scheme

The applicant, B. Braun, sought listing of 2 additional variants of B. Braun Flexima Key Maxi Drainable in subgroup 11(a) of the Stoma Appliance Scheme (SAS) Schedule. The 2 additional variants of the product were proposed for listing at a unit price of \$16.377, with a pack size of 30 and a maximum annual quantity of 240 units.

Comparator

The applicant nominated Omnigon Flexima Key (SAS Code 9828G) as the comparator. The comparator product (3 variants) is currently listed in subgroup 11(a) of the SAS Schedule at the unit price of \$16.377, with a pack size of 30 and a maximum annual quantity of 240 units.

Background

This application was to add 4 variants to the existing product range of Omnigon Flexima Key, to be renamed the B. Braun Flexima Key Maxi Drainable (SAS Code 9828G). The product was first listed on the SAS Schedule on 1 April 2011.

The applicant has requested a variation to this product (BB#21OCTOBER2023) to change the supplier to B. Braun and the product name to B. Braun Flexima Key Maxi Drainable. This change has been recommended by the Stoma Product Assessment Panel (the Panel) secretariat and the secretariat recommendation was noted by the Panel at the October 2023 meeting. Subject to Government agreement, this change will be implemented.

Clinical Place for the Product

The proposed product is for users requiring a fistula pouch.

Clinical Analysis

The Panel noted the application was seeking to add an additional 2 variants to an existing product range on the SAS Schedule; however, the application was not explicit about how the product was different from the current products listed and no sample was provided for the Panel's consideration.

Economic Analysis

The Panel noted that if the listing of new variants of this product were recommended for listing, it would be recommended at the same price and same maximum monthly quantity as currently listed products in the same subgroup, resulting in the same monthly cost to the SAS.

Financial Analysis

Should listing additional variants of this product be recommended in the future, the likely budgetary impact for the SAS would be dependent on the agreed price per unit and maximum quantity in comparison to other products listed in the same group and subgroup.

Panel Recommendation

The Panel rejected the application for 2 additional variants of the B.Braun Flexima® Key Maxi Drainable to be listed in subgroup 11(a) of the SAS Schedule, with a unit price of \$16.377, with a pack size of 30 and a annual maximum quantity of 240 units. The Panel noted they would welcome a resubmission from the product sponsor that provides more information about the product including how it differs from the existing products under the SAS code as well as a product sample.

Context for Recommendation

The Panel provides advice on whether stoma products should be subsidised and, if so, the conditions of their subsidisation in Australia. Applications are considered in this context. Panel advice not to recommend listing or changes to a listing does not represent a final Panel view about the merits of a particular stoma product. A company can resubmit to the Panel following advice not to recommend listing or changes to a listing. The Panel is an advisory committee and as such its recommendations are non-binding on Government. All Panel recommendations are subject to Government approval.

Applicant's Comment

The applicant noted the recommendation.

B.Braun Urimed Bag – BB#36OCTOBER2023

Proposed Listing on the Stoma Appliance Scheme

The applicant, B. Braun, sought listing of 3 additional variants of B. Braun Urimed Bag in subgroup 9(i) of the Stoma Appliance Scheme (SAS) Schedule. The 3 additional variants of the product were proposed for listing at a unit price of \$2.190, with a pack size of 10 and a maximum monthly quantity of 5 units.

Comparator

The applicant nominated Omnigon BBraun Urimed Bag 2L (SAS Code 3951Y) as the comparator. The comparator product (one variant) is currently listed in subgroup 9(i) of the SAS Schedule at the unit price of \$2.190, with a pack size of 10 and a maximum monthly quantity of 5 units.

Background

This application was to add 3 variants to the existing product range of Omnigon Bbraun Urimed Bag 2L, to be renamed B. Braun Urimed Bag (SAS Code 9926K). The product was first listed on the SAS Schedule on 1 October 2012.

The applicant has requested a variation to this product (BB#24OCTOBER2023) to change the supplier to B. Braun and the product name to B. Braun Urimed Bag 2L. This change has been recommended by the Stoma Product Assessment Panel (the Panel) secretariat and the secretariat recommendation was noted by the Panel at the October 2023 meeting. Subject to Government agreement, this change will be implemented.

Clinical Place for the Product

The proposed product is for users requiring a night drainage bag.

Clinical Analysis

The Panel noted that this application was to add 3 variants to an existing product range to include additional pouch sizes of 500ml and 800ml in a curved shape and a 2L pouch in a rectangular shape.

The Panel noted the product would not be used in clinical practice for patients with a stoma. Patients with a stoma would use a urostomy bag and use of a secondary bag would not be clinically recommended. The product is a continence product which would be used for catheters where there is no other storage capacity.

Economic Analysis

The Panel noted that if the listing of 3 additional variants of this product was recommended in future, it would be at the same price and same maximum monthly quantity as currently listed products in the same subgroup, resulting in the same monthly cost to the SAS.

Financial Analysis

Should listing this product be recommended in the future, the likely budgetary impact for the SAS would be dependent on the agreed price per unit and maximum quantity in comparison to other products listed in the same group and subgroup.

Panel Recommendation

The Panel rejected the application for B. Braun Urimed Bag to be listed in subgroup 9(i) of the SAS Schedule with a unit price of \$2.190, with a pack size of 10 and a maximum monthly quantity of 5 units, noting that the product would be of limited utility for patients with a stoma.

Context for Recommendation

The Panel provides advice on whether stoma products should be subsidised and, if so, the conditions of their subsidisation in Australia. Applications are considered in this context. Panel advice not to recommend listing or changes to a listing does not represent a final Panel view about the merits of a particular stoma product. The Panel is an advisory committee and as such its recommendations are non-binding on Government. All Panel recommendations are subject to Government approval.

Applicant's Comment

The applicant noted the recommendation.
