Subject: Dates for stakeholder consultation for the surgical guides and biomodels review with AHA

Good morning,

Please let me know if this time accommodates everyone. This meeting is to discuss the dates to stakeholder consultation/final report for the surgical guides and biomodels review with AHA.

I will not be able to attend however I have included my notes below.

My understanding is that stakeholders and sponsors should now be given a minimum 4 weeks to respond to the report. When taking into consideration shut down this would push the due date for responses out to 6 January.

Below are some suggestions of new due dates to consider as a starting point for discussion. However this now runs into the new year and AHA capacity to accommodate any date changes needs to be discussed. It may be worthwhile noting this removes some urgency for the report to be sent on Friday.

25 November: Report sent to stakeholders for comment (by AHA) with 4 weeks to respond + shutdown

15 December: draft report considered by PLAC

Feedback from PLAC to AHA to incorporate changes to the report: date? verbal update from Jeff, with Minutes provided ASAP

(shutdown period 23 December to 3 January)

Friday 6 January (previously 9 December): Stakeholder comments on draft report due

Final report due 30 January (previously 22 December):

Kind regards,

s47F and s47

Further to our discussion and my feedback on your document, I think the following should also form part of stakeholder feedback:

I think s47F, and other clinical experts as you see fit, should be asked to provide feedback on what item numbers listed in table 9 require guides and/or biomodels (and if so, a maximum number appropriate). They could also assist in defining simple and complex CMF surgery (which may be independent of MBS item numbers), and by so doing assist in improving Tables 18 and 19.

Thanks again for your ongoing hard work.

Best regards

Subject: Quality assessment of studies included in the surgical guides and biomodels review
 [SEC=OFFICIAL]

Hi s47F

One of your questions to the Department discussed on Friday regarded assessment of bias in studies. s22 may have mentioned quality assessment checklists can be used for studies included in the review. Those used in the past for post market reviews include checklists adapted from the NHMRC (2000), SIGN and GRADE assessment tools.

The link to the NHMRC website includes links to the tools suggested above and recommendations on which tool to use based on study type - [Assessing risk of bias | NHMRC](#). Note: some of the links to SIGN tool are broken so here it is: [Checklists \(sign.ac.uk\)](#).

Please let me know if you have any further questions on this.

Many thanks,

Hi s47F

I haven't seen an invoice for the research protocol yet. Have you sent one through? If so what email did you send it to?

Our departmental email to receive invoices has been updated to s47E(d). It is now an automated system so invoices should be sent as a PDF, with the subject line as the invoice number, and PO number quoted on the invoice. I have also been told the system will fail if there is anyone cc'd as it is automated.

Cheers,
 s22

Hi s47F

Thank you for this request.

I have forwarded it to our data expert s22 (Cced). s22 advises that we can provide this data from the HCM dataset. It should be available to you by this Friday at the latest.

I have also forwarded the invite to tomorrow's meeting to s22 and he will join at 10.15 to discuss any queries you may have. If we can't cover off on everything tomorrow you can arrange a subsequent meeting with him.

Best Regards

Hi s22

Thanks for offering to facilitate an additional departmental data request. The following outlines the additional data sought to our previous extract (20220606 – Surgical guides and biomodels – Final Tables):

1. An update of the selected Surgical Guides and Biomodels, by Sponsor, by Financial Year table with Digital Dental Network data included
2. The Top 20 MBS codes for utilisation, separated for surgical guides and biomodels
3. Top 20 PMBS codes for utilisation, separated for surgical guides and biomodels
4. Utilisation by individual sponsor for top 20 MBS codes
5. Utilisation by individual sponsor for top 20 PMBS codes
6. Number of items used by top 20 MBS codes, separated for surgical guides and biomodels
7. Break down Private overnight hospital separations into:
 - a. Separations with a length of stay (LOS) of 1 day (or less)
 - b. Separations with a length of stay (LOS) of 1 or more days
 - c. Separations which included an admission to intensive care or high dependency unit (if possible)
8. Number of items used per hospital separation, separated by:
 - a. LOS of 1 day (or less)
 - b. LOS of 1 or more days.

We are happy to discuss this request further with your data team member if required.

Kind regards,

s47F

Dear Elizabeth

As we discussed, on the phone, I received this important information regarding surgical guides, bio models and patient-specific plates from a key Oral and Maxillofacial surgeon after the due date.

I did forward the attached information on to s47F at AHA Consulting this morning.

Thank you for providing this opportunity to ensure that this information is received.

I'm sure s47F would be happy to speak to the consultants and or the DOHA on this issue

s47F best contact via his PA s47F on s47F

Thank you

Kind regards

Hi s22

I've discussed with s22 and the numbers from the admissions data can probably be updated fairly easily by the end of next week, if you are able to send the updated admissions data, or let me know if there's another way to access.

For the benefit of others, the paper included 2020-21 data from Qlik but the admissions data was up til June 2020.

Kind regards,

s22

Subject: Update analyses for Surgical Guides and biomodels. [SEC=OFFICIAL]

Hi s22

I hope DUSC went smoothly last week. As you know we are involved in a review of surgical guides and biomodels for which you did a utilisation review for PLAC (attached with the original data tables). Do you have capacity to update the analyses with 2020-21 data?

In the 2020-21 FY there was a bug jump in utilisation (see below – note 2021-22 data is incomplete). It would be interesting to check if we can see what is driving this in patient level analysis (such as you have done for the 2018-19 and 2019-20 FYs in your original utilisation review). The overall analysis looks like it already included 2020-21 data.

	FY	PRSTHSS_ITM_C...
1	2018/2019	3,041
2	2019/2020	3,867
3	2020/2021	7,494
4	2021/2022	6,087

We have spoken to s22 in HERD and the 2020-21 data is now complete to use.

Thanks,

s22

Hi s22

Thanks for forwarding the additional PHA submission information yesterday.

As discussed at our last meeting, we would like to take you up on the offer of a meeting with department representatives next week (preferably Friday 4 Nov) to discuss:

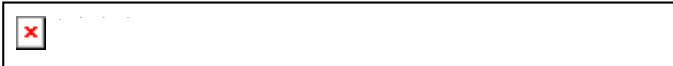

- emerging themes from the review
- some further questions we have (see the attached list of questions)

Could you let me know when it will suit the department to meet?

Kind regards,

s47F

Subject: Timeframes for SGB review stakeholder consultation on draft report [SEC=OFFICIAL]

Hi s47F

Please see below timelines for after the draft report is due for stakeholder consultation, as was briefly mentioned in our meeting on 18 October. Let me know if there are any issues with timeframes for AHA.

18 November (or before start of business Monday 21 November): Draft report due to the Department

23 November: Department feedback on draft report to AHA

24 November: Meeting with the Department and AHA to discuss draft report and confirm suitability to be sent to stakeholders.

25 November: Report sent to stakeholders (by AHA). 2 weeks to respond - limit 4 pages of text and 2 pages of tables.

9 December: Stakeholder responses due

Also when you send the draft report through, can you please cc s22 and s22 and PL review to ensure it gets to all relevant staff as soon as possible?

Kind regards,

s22

Thanks s47F I can see s22 is out of office until Wednesday which may be why you haven't heard a reply from him.

I will check with the other Departmental attendee's on whether on whether the Thursday 3:30pm time would suit better, however it appears most can attend the Friday 9am time.

Many thanks,

s22

Hi s22

The meeting wont go ahead tomorrow as it is a public holiday in Melbourne. I emailed on Friday to see if we could make a meeting for Friday. However, s22 emailed back to say he could possibly make 9am Friday (although it is a clinic day for him).

I responded that we could do after 3.30pm Thursday if that works better for the department.

Could you confirm when best suits?

Kind regards,

s47F

Hello all,

I just wanted to check if the fortnightly catch-up between the Department and AHA will still go ahead tomorrow (I can see on the invite you are unable to attend s47F or will the meeting below be instead of the meeting tomorrow?

s22 and I will not make the Friday meeting, however s22 (who is acting for s22 this week) and s22 will be able to attend.

Many thanks,

s22

Hi s22

Thanks for forwarding the additional PHA submission information yesterday.

As discussed at our last meeting, we would like to take you up on the offer of a meeting with department representatives next week (preferably Friday 4 Nov) to discuss:

- emerging themes from the review
- some further questions we have (see the attached list of questions)

Could you let me know when it will suit the department to meet?

Kind regards,

s47F

Hi s47F

As discussed, the Department is doing a small update to the data analysis for surgical guides and biomodels that was provided to you previously (I have attached again for reference). The update will include additional 2020-21 data in the second part of the report - the patient level analysis – which previously only used 2018-19 to 2019-20 data.

We are hoping to have the update completed before our catch-up next Tuesday.

Cheers,
 s22

Hi s22

Research protocol

Thanks for the very useful feedback session on the Research Protocol at our last meeting. I now attach an updated final version of the **Research Protocol** taking into account the suggested amendments. I have also attached a **summary of changes** made to the protocol for your reference.

Conflict of Interest form

Thank you for also sending through the Department's Conflict of Interest form. I have attached for your approval the AHA's adapted version of the Department **form for your sign-off**. As AHA is collecting this information, we have by necessity made some changes. We have also added a definition of conflict of interest and included the words perceived, potential or actual conflict of interest. We also refer to **AHA's Privacy Policy** (which I have attached for your information). Please let us know if you are happy for us to proceed using this form.

Additional Deeds of Confidentiality

I also attach the **Deeds of Confidentiality** for our newest team member, s47F and our expert, s47F.

Communications

I have cc'd s22 into this email, as I am aware that you are not in the office today. I have also cc'd your requested email inboxes. Should I also include s22 or s22 in future emails?

Next meeting

I look forward to updating you with our progress at our meeting on Tuesday morning. Thank you for sending through the invite.

As always, please do not hesitate to contact me, if you wish to discuss anything further.

Kind regards,

s47F

Hi s
 47F

I hope you are going well. Attached is the report template and below additional information for the review. I will send the COI form you requested through soon (we are just seeing if we can find a shorter form to use than our usual one).

In the template for the report there is a 'background' section. s22 has suggested the RFQ (introduction and background sections) has wording that can be used for the 'context for the review' and 'why review' sections. In addition, the [PL reforms webpage](#) and [Post-listing review framework](#) may provide some wording on the review process. If you have any questions about the report template please don't hesitate to ask.

Below are additional contact details for clinical experts.

s47F

Here is the **Purchase Order (PO)** number to reference when invoicing the Department: 4500149437

Research protocol feedback - For your information s22 (our medical advisor) is on leave next week so will be unable to attend the meeting on the 20th to provide feedback on the research protocol. If you find yourself in a position to send through the protocol or a draft this week (ideally before Friday), s22 has offered to send some comments through via email before he leaves. If you are unable that is ok (I know this is ahead of the due date), and we will provide feedback from other Departmental staff on the 20th. I will also set up a meeting when he is back on the 27th so that we can all check in.

If you have any questions or would just like to chat before s22 goes on leave please let me know and I can organise.

Many thanks,
 s22

Hi s22

Received with thanks.

I think the only other item we discussed at the start-up meeting was the reporting template the department uses for post-listing reviews – if you could send through that would be great.

Also, if you have an example conflict of interest form that we could adapt for our consultations with experts that would be helpful.

Kind regards,

s4

His ^s₄₇ (and ^s_{47F})

Please see attached initial background information from the Department. Please treat all information provided by the Department (that is not already publicly available) as confidential information.

- Prostheses List Post listing Review Framework
- List of billing codes and product names.
- Most recent correspondence with sponsors (email)
- Sponsor and stakeholder list
- Utilisation review (title: PLAC 32 Surgical Guides and Biomodels) and background tables
- Prosthesis list guide
- link to reforms webpage [The Prostheses List reforms | Australian Government Department of Health and Aged Care](#).
- Published articles/papers for some background

List of clinical experts (this may be added to):

^s_{47F}

In our meeting yesterday, I also indicated we would be able to share some sponsor applications but unfortunately we cannot do so. If you think this information is necessary to inform the review, perhaps this can be requested this from sponsors when they submit evidence.

I hope you are feeling better soon ^s_{47F}

Kind regards,

^s₂₂

Thanks s47F

I will make some enquiries re whether there is a TGA contact that can provide more details on the ARTG issue. Also, have arrangements been made for a discussion with key departmental staff, including re eligibility criteria? I can flag this with the staff I nominated and try to gauge a suitable time, if this helps?

Hi All

Some of these devices will not have ARTG listings due to the stage they are at in the transitional arrangements for personalised medical devices.

Perhaps the question/s they are asked should account for this. i.e....

1. Request ARTG
2. If no ARTG, explanation for why not (+/- stage of the regulatory process they are at towards ARTG inclusion)

Hi s47F

Thanks – we are on the mend.

Neither s22 or I can see an issue with asking sponsors for the ARTG listing and this seems a reasonable approach. I have cc'd s22 and s22 from the PL reviews area – please let us know if you disagree?

Kind regards,

s22

Hi s22

I hope you have recovered well.

After our meeting, with s22 and s22 on Wednesday, s47F followed up with an additional email seeking confirmation that the department considers it reasonable to request the ARTG listing reference from sponsors in our initial email to them. In our initial research, we were unable to find listings for some products. We are proposing to ask sponsors to provide the Australian Register of Therapeutic Goods (ARTG) reference number for each product.

As we are keen to get our request out to sponsors today, could you follow this up with s22 or s22

This would be most appreciated. Please give me a call on my mobile when you are free and I can update you on where we are at following our meeting.

Kind regards,

s47F

Subject: Further details re ARTG inclusion [SEC=OFFICIAL]

Hi s47F

I have spoken to TGA re personalised medical devices (PMDs) and the ARTG.

Any sponsor supplying PMDs not included on the ARTG needed to register for transitional arrangements by submitting a transition notification form to the TGA by 25 August 2022 (otherwise they cannot legally supply after this date).

Sponsors who applied were provided with a unique identification number.

Therefore, any sponsor of PMDs must either have their devices included on the ARTG, or have registered for the transitional arrangements and hence be able to provide their transition notification form and unique identification number.

The TGA lead in this area is s22. She is willing to meet with you if you would like.

Happy to discuss further.

s22 and s22 I have reviewed the protocol and quickly scanned the appendices. I have included comments on the protocol for discussion with AHA tomorrow.

If you can add any comments you have (noting I have only quickly brushed over the appendices) and return to the AHA ahead of the meeting tomorrow – I think this will help them prepare for the meeting.

Thanks

Dear s22 and s22

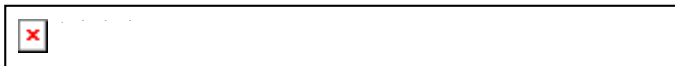

We are delighted to attach the Research protocol we have developed for the surgical guides and biomodels review. We look forward to discussing the research protocol further on Tuesday morning.

Thanks s22 for your advice on the departmental contacts to be involved in a consultation. I will follow this up on Monday. I hope you enjoy your break next week.

Kind regards,

Hi s 47F

Thank you for sending this through. Can we reschedule the meeting today at 10am for tomorrow (3pm looks like it would suit everyone from the Department)? I have been out sick and s 22 is on leave, so I missed your email on Friday and was unable to forward it to others in the Department to review the protocol until this morning.

Can you include s 47E(d) @health.gov.au and s 47E(d) @health.gov.au when sending deliverables to the Department (and cc PL reviews when sending emails to the Department) to ensure nothing gets missed?

Kind regards,

s 22
