

# A Quick Guide to the Digital Health Blueprint 2023–2033

The Australian Government’s vision for the role digital will play in building a more connected health and aged care system in Australia.

The Blueprint articulates our commitment to:

## Putting people first

all Australians will have access to better quality health care

## Helping healthcare providers

to deliver consistent, effective health care

## Supporting research and innovation

to deliver innovative and effective health care

Our vision for digital health in Australia is

***Trusted, timely and accessible use of digital and data that underpins a personalised and connected health and wellbeing experience for all Australians.***

Our work will be underpinned by the following principles

### Person-centred

### Collaborative

### Trusted

### Enduring

To deliver the following outcomes

Every Australian has a choice in managing their health and wellbeing journey

Australia’s health workforce can confidently and easily provide digitally connected care

Data helps deliver a sustainable learning health system

Digital foundations empower a safe and secure health system

This will provide our delivery partners

### Clarity

on the Government’s digital priorities

### Certainty

to those involved in delivering innovation

### Collaboration

delivering effective healthcare

Delivering our vision

The **Action Plan** highlights the initiatives the Australian Government is investing in to meet the target outcomes identified in the Blueprint and outlines key delivery partners and progress. The Action Plan will be refreshed regularly to outline progress and to include new digital and data investments over time.
