\* The total number of service providers is not cumulative. A service provider is considered 'active' if they submitted a claim in relation to the program during the month

Sources: PPA Online Claiming Portal (from 1 February 2019) and totals are accurate at point in time and may be adjusted over time.

Note: From 1 July 2017, service providers could claim a fee for each Staged Supply service. As service providers did not have to lodge a claim until the end of the next calendar month after the delivery of a service, no claims were lodged until the end of August and payments did not commence until October.
