

## Australian Immunisation Register - Influenza Data - 1 March to 4 August

### Notes and Caveats

- All data is based on influenza vaccinations reported to the Australian Immunisation Register (AIR) as at COB 4 August 2024.
- Data is from 1 March to 4 August for each encounter year.
- Influenza vaccination data is not directly comparable across years due to a range of factors, including:
  - The impact of the COVID-19 pandemic and national and local responses to the pandemic over time
  - Early in the influenza season, the timing of seasonal events such as Easter
  - Timing of vaccines provided by pharmaceutical companies for clearance through the Therapeutic Goods Administration (TGA)
  - Supply of vaccines and commencement of flu season.
- Vaccinations where the person has since been 'End dated' in the Medicare Consumer Directory (due to death, emigration, etc) are included in the data.
- Data includes influenza vaccinations given to Medicare eligible and non-Medicare eligible individuals.
- The counted values represent a count of all vaccination episodes.
- A 'Vaccination episode' is linked to a State or Territory based on the vaccinated individuals Medicare residential address at the time of the report's creation.
