State breakdown is based on the state in which a vaccine was physically administered and may differ from a person's residential address.

# COVID-19 vaccinations in the last six months

Data as at:  
06 Nov 2024

**482.3k (23.2%#)**

individuals aged **75 years and over** have received a vaccination in the last six months##

**350.5k (14.1%#)**

individuals aged **65 to 74 years** have received a vaccination in the last six months##

**444.5k (2.7%#)**

individuals aged **18 to 64 years** have received a vaccination in the last six months##

**1.3m**

total vaccine doses administered to **all ages (18 years and over)** in the last six months

Number of doses administered in the last six months by provider state###

Provider state	Doses (18+ years)	Monthly change*
National	1.3m	-14.6%
ACT	40.1k	-17.1%
NSW	381.0k	-14.1%
NT	5.2k	-10.2%
QLD	230.4k	-14.3%
SA	96.6k	-15.4%
TAS	48.2k	-16.0%
VIC	356.5k	-15.3%
WA	134.7k	-12.7%

#Coverage uses the Australian Bureau of Statistics June 2023 Estimated Resident Population (ERP) as denominator.  
##The number of people with a dose will not match the number of doses administered. This can occur when a person receives a valid dose but then permanently leaves Australia, when a person receives multiple doses in a short time period (such as a specific health recommendation or a vaccine administration error), or in the case of data input errors into the Australian Immunisation Register.  
###State breakdown is based on the state in which a vaccine was physically administered and may differ from a person's residential address.  
\*Difference between the previous six-months as per the data as at date and the previous six-months calculated four weeks ago. Comparing rolling time periods can result in negative changes depending on the rate of vaccination.

# Vaccinations by age and location

Australia's COVID-19  
Vaccine Program

Data as at:  
06 Nov 2024

Time since individuals last vaccination by residential state (18+ years)

Residential state*	Vaccinated in the last six months	Vaccinated in the last 12 months
National	1.3m	2.9m
ACT	36.6k	79.0k
NSW	379.9k	886.2k
NT	5.0k	13.2k
QLD	227.7k	549.0k
SA	95.5k	223.4k
TAS	47.5k	97.0k
VIC	344.5k	751.1k
WA	133.2k	293.4k
Unknown/Other	7.5k	13.6k

Time since individuals last vaccination by age (18+ years)

Key: m = million k = thousand  
Source: Australian Immunisation Register

\*Residential state is based on a person's usual state of residence. In some cases, a residential address may be in Other Territories or unable to be linked to a state and result in unknown values.

# Aboriginal and Torres Strait Islander peoples

Australia's COVID-19  
Vaccine Program

Data as at:  
06 Nov 2024

Time since First Nations individuals last vaccination by state (18+ years)

Residential state*	Vaccinated in the last six months	Vaccinated in the last 12 months
National	17.2k	39.3k
ACT	<500	753
NSW	5.8k	13.4k
NT	830	2.3k
QLD	3.9k	9.3k
SA	952	2.1k
TAS	1.0k	2.2k
VIC	2.2k	4.6k
WA	1.8k	3.7k
Unknown/Other	<500	912

Time since First Nations individuals last vaccination by age (18+ years)

Identification as Aboriginal and/or Torres Strait Islander in the Australian Immunisation Register is optional, and the estimated population may be under reported.

\*Residential state is based on a person's usual state of residence. In some cases, a residential address may be in Other Territories or be unable to be linked to a state and result in unknown values.

# Residential aged care vaccination

Data as at:  
06 Nov 2024

**133.9k (72.7%)**

aged care residents have received a vaccination in the last 12 months<sup>#</sup>

**99.2k (53.9%)**

aged care residents have received a vaccination in the last six months<sup>#</sup>

## Aged Care COVID-19 vaccinations

Jurisdiction	Received a vaccination in the last six months	
	Residents vaccinated	% of residents vaccinated
National	99.2k	53.9%
ACT	1.4k	57.9%
NSW	31.8k	53.9%
NT	293	60.5%
QLD	18.9k	50.6%
SA	8.6k	53.9%
TAS	2.1k	49.5%
VIC	27.1k	56.8%
WA	9.2k	53.5%

Key: m = million k = thousand

<sup>#</sup>Residential aged care populations are fluid and hence an estimate only. There is an administrative lag with the aged care recipient data which is linked to Australian Immunisation Register data. Counts may fluctuate due to enhancements to data over time.

Person Level Integrated Data Asset (PLIDA)

# Individuals with Culturally and Linguistically Diverse\* (CALD) backgrounds

Data as at:  
27 Oct 2024

Vaccinations administered in  
the last 12 months  
(18+ years)

Time since CALD individuals last vaccination by state (18+ years)

	Born overseas		Speaks a language other than English at home	
State	Vaccinated in the last six months	Vaccinated in the last 12 months	Vaccinated in the last six months	Vaccinated in the last 12 months
National	169.7k	395.2k	105.1k	252.8k
ACT	6.0k	12.9k	3.8k	8.6k
NSW	56.5k	138.8k	36.6k	94.5k
NT	662	1.8k	402	1.2k
QLD	22.3k	55.2k	12.3k	30.9k
SA	10.1k	23.4k	6.1k	14.4k
TAS	3.5k	6.7k	1.6k	3.1k
VIC	51.7k	114.8k	34.8k	79.0k
WA	19.0k	41.3k	9.5k	21.0k

\*Individuals with culturally and linguistically diverse (CALD) backgrounds are as reported in the 2021 Census and do not include Aboriginal and Torres Strait Islander peoples. The Born Overseas cohort excludes those born in the United Kingdom, Ireland and New Zealand. The data excludes those who have since departed Australia and deceased persons since the 2021 Census. There is an overlap across CALD cohorts where individuals may have reported they had more than one CALD characteristic in the 2021 Census. Counts in underlying data may fluctuate a small amount due to perturbation, data maturity and changes in population size.

# Explanatory notes

**The Australian Immunisation Register (AIR):** the Australian Immunisation Register is a national register that records all vaccines given to people in Australia.

**Doses administered:** the total number of COVID-19 vaccination records in the Australian Immunisation Register. This includes all records, including vaccine administration errors, doses that were administered to people who are no longer active in Australia (relocated or passed away), and doses administered to people overseas who have since interacted with the Australian health system. The number of doses administered is different to the number of people with a dose. The number of doses administered is normally shown by the provider state, while the number of people with a dose is normally shown by a person's residential state.

**Time Since Last Vaccination:** the time that has elapsed since a person's last recorded COVID-19 vaccine, based on the administration date in the Australian Immunisation Register.

**Current age:** unless otherwise specified, when reporting on the number of people age is calculated based on the age of a person at the time of reporting. It is possible for a person to move across cohorts over time however they are counted in only one cohort at the time of reporting.

**Encounter age:** unless otherwise specified, when reporting on the number of doses age is calculated based on the age of a person at the time of vaccine administration.

**Aboriginal and Torres Strait Islander peoples:** the Aboriginal and Torres Strait Islander population refers to the number of individuals that identify as Aboriginal and Torres Strait Islander in the Australian Immunisation Register. Identifying as Aboriginal and/or Torres Strait Islander is optional, and the estimated population may be under reported. Numbers include all Aboriginal and Torres Strait Islander peoples who have received a vaccination and are not limited to those administered in an ACCHS setting.

**Other Priority Populations:** some cohorts of interest are unable to be identified in the Australian Immunisation Register alone. For information on these priority populations, please refer to the caveats with the data, as these use different data assets and may have different methodologies that are not directly comparable to the general population.

**International doses:** vaccination doses that are recognised by the Therapeutic Goods Administration (TGA) and were physically administered outside of Australia to people included in the Australian Immunisation Register. Please note that many of these doses are assigned to a default provider with a location in the Australian Capital Territory.

**Monthly increase:** is the difference between the reported total as per the data as at date and the reported total from four weeks ago. This captures all new records uploaded into the Australian Immunisation Register, even if the doses were not physically administered during this time period (i.e., if a provider enters a record late).

**Rounding:** please note that numbers may not add up to their total due to rounding of figures.

**Update information:** vaccine data is sourced from the Australian Immunisation Register as at 11:59pm 06 November 2024 unless otherwise noted.
