

# Medical Research Future Fund Roll of Honour

The Medical Research Future Fund (MRFF) Roll of Honour celebrates the people who contributed to the MRFF grant assessment process between 1 July 2023 and 30 June 2024.<sup>1</sup> As [MRFF Grant Assessment Committee](#) (GAC) members, the following people have been integral to ensuring the MRFF supports high impact projects, with sound methodology and strong teams, that can deliver real outcomes for the Australian community.

## MRFF Grant Assessment Committees

The MRFF grant opportunity process is supported by the independent assessment of applications by GACs.

GACs are set up by the agencies that administer MRFF grant opportunities – [National Health and Medical Research Council \(NHMRC\)](#) and the [Department of Industry, Science and Resources \(Business Grants Hub\)](#).

GACs comprise expert reviewers such as scientific experts, consumers, industry experts and health service providers. Members are selected on the basis that they will bring experience and expertise in a range of areas including:

- translation of research into clinical practice
- commercialisation of health research
- transdisciplinary research
- international research projects, including clinical trials
- health economics and biostatistics
- representing consumer and/or community organisations.

The involvement of consumers and health services experts on GACs is particularly important given the emphasis placed on the translation of research funded by the MRFF.

The gender balance of GACs is also considered, along with geographic representation. The NHMRC and Business Grants Hub also strive to include at least one international representative on each GAC to ensure MRFF-funded research is internationally competitive.

<sup>1</sup> The MRFF Roll of Honour is based on information collected by the NHMRC and the Business Grants Hub. Information was current as at 30 June 2024.
