

# Your child could be eligible for dental benefits

The Child Dental Benefits Schedule (CDBS) is part of Medicare. It covers part or all the cost of basic dental services for children who are eligible.

Your child could be eligible for the CDBS if they are:

- under 18 years of age
- eligible for Medicare, and
- getting a government support payment at least once a year, or have a parent, carer or guardian who is getting a government support payment.
