National Nursing Workforce Strategy

Strategy Advisory Group

Meeting Communique 17 February 2025

The eighth meeting of the National Nursing Workforce Strategy Advisory Group (SAG) was held on 17 February 2025. The purpose of the meeting was to develop key components of a monitoring and evaluation framework (MEF) for the National Nursing Workforce Strategy (strategy) and explore data availability.

The MEF seeks to set out a plan for assessing implementation of the strategy. It intends to be a flexible document, noting the final draft strategy is not yet endorsed. Member feedback on the MEF will be considered alongside broader stakeholder feedback and help support implementation of the strategy.

To receive updates on development on the strategy, stakeholders may visit the strategy [website](#) or by signing up to the Commonwealth Chief Nursing and Midwifery Officer [newsletter](#).
