

# Assistive Technology and Home Modifications list (AT-HM list)

This is a definitive list of the products, equipment and home modifications that Support at Home participants can access through the Assistive Technology and Home Modifications (AT-HM) scheme.

The AT-HM List uses *Assistive products – classification and terminology* (ISO 9999:2022) to describe the items that are available through the scheme.

AT-HM funding may only be used for products, equipment and home modifications on this list where it optimises that person's functioning or manages that person's disability or age-related functional decline.

Participants may use their AT-HM Scheme funding on items listed under 'Inclusions' where an assessed need is documented in their support plan. Conditional inclusions are subject to additional criteria.

All items listed under 'Exclusions' are not available through the AT-HM scheme.

Low risk	Simple and relatively low-cost daily living products that need no prescription or customisation
Under advice	Low risk items, but would benefit from professional advice to ensure that they are selected, installed or used effectively
Prescribed	Items that require a prescription from a suitably qualified health professional

Further details on who may prescribe assistive technology and home modifications under the AT-HM scheme will be available in forthcoming program guidance.

## Assistance dogs

If a participant is not accessing the government-funded Physical Assistance Dogs Program, some of the costs associated with essential assistance dog maintenance may be included under the AT-HM scheme where the services directly relate to the upkeep of the dog.

A dog must meet the definition of an assistance dog used by Health Direct and be required to enable participation in activities of domestic life.

Essential assistance dog maintenance costs may include: animal vaccinations, deworming and flea treatments, essential grooming, dog food, vet bills. It does not include non-essential assistance dog maintenance costs, such as boarding kennel fees, or grooming for aesthetic reasons.

*Note: funding for assistance dogs is a specific need with separate funding. Participants may only claim for the following where they have received this separate funding, and the dog meets the definition of assistance dog used by Health Direct.*
