Hi s47E(c), s47F I have reviewed the draft from 22 March. I don't believe much needs to change from that draft, except maybe a line removal.
 See media links below relating to the Open Tech announcement. I'll also look for data in what open source actually is.

From: s47E(c), s47F

Subject: MOWA mtg brief/ Open Care Tech announcement [SEC=OFFICIAL]

Hi s47E(c),
 I have incorporated what you asked, however you may not be aware the program has already been rolled out (see links below) which may again change what you would like drafted.

Inside Ageing

<https://insideageing.com.au/open-source-software-for-in-home-aged-care-providers/>

St George & Sutherland Shire Leader

<https://www.theleader.com.au/story/8562095/new-future-fit-collective-initiative-revolutionises-in-home-care-providers/>

Australian Technology News

<https://www.techbusinessnews.com.au/news/future-fit-collective-announces-open-source-software/>

And I wasn't sure if you meant for me to claim the PDS, instead I have saved a new copy and attached above.

Please let me know if you need it adjusted again

Subject: RE: Open Care Tech announcement [SEC=OFFICIAL]

Hi [\[redacted\]](#)

We were surprised to receive this from Minister Well's office given your last email to the minister advised that you would reach out to her further on this to 'share your vision in more detail'. We respectfully request that you hold off on your planned announcement until you have spoken to us about your plan in more detail. We have a range of questions, in particular:

- What specifically does Open Care Tech do, what are the benefits to organisations?
- How is Privacy and data security maintained
- This looks like it could be a duplication of existing software if it only offers basic operational support.
- What tech developers have been engaged to contribute to software development.

Regards

Thea

EMBARGOED UNTIL 12.01AM 21 MARCH 2024

Dear Minister Wells

Further to my email to you on 10 February 2024, I am writing to let you know we will be launching Open Care Tech this Thursday 21 March. Our media release which is embargoed until 12.01am Thursday 21 March 2024 is attached for your reference.

Our decision to make the software we helped to develop freely available will not only benefit the wider community but also maximise the impact of the government's investment in Future Fit. We believe that this approach aligns with the objectives of the government to promote accessibility and advance technology, as well as setting a precedent for further investments to also be shared across the network.

We believe that this collaborative approach will foster innovation, reinforce a strengthened sense of community, drive improvements, and ultimately support our common goal, which is to enhance the quality of in-home care.

Tomorrow, the **Open Care Tech** code base will be available for any vendor, developer, CHSP, HCP or NDIS service provider to use – in whole or part. The only condition being that they similarly make any use or enhancement of the code open and free for others to use.

We have the support of vendors currently providing products to meals on wheels providers, because as anyone experienced in open-source software knows, a vibrant commercial ecosystem is essential to our continued growth and success. We hope that the release of the software as an open-source project will encourage transparency and excellence within the vendor community.

This is the legacy of the Future Fit project and of the efforts meals on wheels services involved in the now abandoned Feasibility Study. It is only due to the commitment of these meals on wheels services that it will now be possible for every aged care provider to benefit from the code, should they want to.

Making this software open-source limits the risk of coercion or vendor lock-in or commercially motivated financial barriers to what is essentially a taxpayer funded resource. We hope that **Open Care Tech** sets a precedent for future government technology investments.

We would welcome the addition of an attributable quote from you to include in our media release. We would also like to offer a meeting with you or your office at any time to discuss the work Future Fit Collective and the benefits of

Open Care Tech.

Kind regards,

s47F

 Queensland Future Fit Convenor

Dear s47F and s47F

Thank you for your correspondence of 12 February 2024 and 20 March 2024 to the Minister for Aged Care and Minister for Sport, Hon Anika Wells MP regarding Future Fit Meal Services and Open Care Tech, respectively. The Minister has asked me to reply.

The department recognises the time and effort you have put into developing the Future Fit deliverables with the ultimate goal of supporting older people to access nutritious meals and to help ensure viability of organisations that provide those meals and accompanying social supports.

The contract with Miles Morgan Australia (MMA) to support the Future Fit project ended on 31 December 2023. In January the Department of Health and Aged Care put in place a transitional contract with MMA. This contract was to close out the Future Fit project and to fully transition any MMA administration at Whitehorse while consideration was given by the Australian Government on the next steps for reforms. However, MMA notified the department on 31 January 2024 that it will no longer be involved in the proposed meals Feasibility Study, which was to be the likely next stage of Future Fit. The department is therefore considering its options before preparing advice to government.

I understand the Future Fit Collective and Open Care Tech was rolled out on 21 March 2024. As set out in my email to s47F of 20 March, asking that you defer your planned launch pending the provision of further information, I have some questions regarding how this interacts with the Future Fit project and the implementation of reforms for all meals services.

We welcome your offer to discuss the Future Fit Collective and Open Care Tech with you. The below questions build on those I posed to you on 20 March:

- What specifically does Open Care Tech do, what are the benefits to organisations?
- How is privacy and data security maintained?
- What added value is provided, compared to existing software?
- How is this technology different to what was developed by MMA when contracted by the department?
- What tech developers have been engaged to contribute to software development?
- Have there been any concerns raised by other Meals on Wheels stakeholders?

I will ask my team to arrange a time to discuss these important issues. Thank you for writing on this matter.

Yours sincerely

s47F

Thea Connolly
First Assistant Secretary
Home and Residential Division
4 April 2024

Hi s47E(c), s47F I added in the information from our meeting with s47E(c), s47F and s47E(c), s47F from IT Engagement. You will read the last point on red flags is left incomplete as they have not yet responded to my email with s47E(c), s47F missed Q you requested I reach out to them on. You may get a response from your level.

Let me know if you need anything further.

Hi s47E(c), s47F

I have expanded the brief as per your template. Please note I am sending you the draft before I have a reply from IT. I am doing this to hopefully be able to update any changes you have while waiting on IT to respond.
