

Influenza vaccination rates of aged care residents by facility

Sourced from AIR data as at 9 July 2025, residential aged care home (RACH) resident data uses a snapshot of residents present in permanent residential aged care as at 31 March 2025.

Data sources and caveats

1. Resident influenza vaccination includes any influenza vaccination administered to a resident from 1 January 2025.
* It does not account for residents who are unwilling or clinically unsuitable to receive a COVID-19 vaccine
2. Total residents refers to all residents in Commonwealth funded positions in residential aged care homes.
3. For reporting accuracy, total resident population only includes residents who have linked with their vaccination records.
4. All homes with a resident count of less than 5 are flagged as 'Confidentially applied'.
5. All homes with equal to or less than 10 residents will have a larger vaccination banding applied.
