GP Non-Referred Attendances (GP NRA) per Patient Bulk Billing Ranges, 2023-24

(including temporary COVID-19 Vaccines items)

Always Bulk Billed 47.7%

Last Year: 51.7%

Usually Bulk Billed 24.6%

Last Year: 25.6%

Sometimes Bulk Billed
14.0%

Last Year: 12.2%

Never Bulk Billed 13.6% Last Year: 10.5%

Many patients have more than one GP NRA service during the year. This page shows the proportion of patients who were always, usually, sometimes, or never bulk billed across **all** of their GP NRA services.

In 2023-24, the proportion of GP NRA patients who were always or usually bulk billed **decreased from 77.3% to 72.4%** while the proportion of patients who were never bulk billed **increased from 10.5% to 13.6%**.

The proportion of patients always (100%) bulk billed tends to be lower than the bulk billing rate because patients with, for example, 9 out of 10 services (90%) bulk billed are classified as "usually" bulk billed.

GP Non-Referred Attendances (GP NRA) per Patient Bulk Billing Ranges, 2023-24

(excluding temporary COVID-19 Vaccines items)

Always Bulk Billed (excl. COVID-19 Vaccine)

47.7% Last Year: 51.6% Usually Bulk Billed (excl. COVID-19 Vaccine)

24.3%

Last Year: 24.9%

Sometimes Bulk Billed (excl. COVID-19 Vaccine)

14.1%

Last Year: 12.3%

Never Bulk Billed (excl. COVID-19 Vaccine)

Last Year: 11.3%

COVID-19 vaccine items were introduced in late February 2021 and had peak usage in the 2021-22 financial year. As bulk billing for COVID-19 vaccine items is mandatory, they impacted the bulk billing rate. This page shows the proportion of patients who were: always, usually, sometimes, or never bulk billed across their GP NRA services **excluding** COVID-19 vaccines.

In 2023-24, the proportion of GP NRA patients who were always or usually bulk billed **decreased from 76.5% to 72.0%** while the proportion of patients who were never bulk billed **increased from 11.3% to 14.0%**.

The proportion of patients always (100%) bulk billed tends to be lower than the bulk billing rate because patients with, for example, 9 out of 10 services (90%) bulk billed are classified as "usually" bulk billed.
