

Guide to changes to financial reporting from 1 November 2025

Version 1.0

Overview

From 1 November 2025, Approved aged care providers will transition to being Registered Providers under the *Aged Care Act 2024* (new Act). Providers delivering the Home Care Packages Program and Short-Term Restorative Care (STRC) Programme will also transition to the new Support at Home program.

From a financial reporting perspective, the 1 November 2025 commencement date is:

- one month into the Quarterly Financial Report (QFR) Quarter 2 2025-26 reporting period; and
- four months into the Aged Care Financial Report (ACFR) 2025-26 reporting period.

Even though the *Aged Care Act 1997* and the new Act are both relevant legislation within the QFR Quarter 2 and ACFR 2025-26 reporting periods, providers will be required to complete only one QFR and one ACFR for the relevant reporting period. Providers will be required to complete the reporting under their new Registered Provider structure.

For a small number of providers, the transition from Approved Provider to Registered Provider will involve a change in organisational structure. In these circumstances, we encourage providers to consider how this will impact your financial reporting. The Department of Health, Disability and Ageing (the department) is available to assist providers if required.

There are changes to financial reporting for providers who deliver residential aged care, the Home Care Packages Program, STRC and the new Support at Home program. Financial reporting requirements for providers of the Multi-Purpose Services Program (MPSP), and the National Aboriginal and Torres Strait Islander Flexible Aged Care (NATSIFAC) Program will not change.

Providers are encouraged to review the resources available including the QFR Quarter 2 and ACFR 2025-26 non-uploadable templates, definitions, guidance and frequently asked questions available on the department's website at [Aged care provider reporting | Australian Government Department of Health, Disability and Ageing](#). The department will continue to update and communicate information about financial reporting throughout the 2025-26 financial year. Further information about assistance available for financial reporting is provided at the end of this guide.

Providers requiring additional assistance to better understand their business and financial operations, including their financial reporting obligations, can access support through department funded advisory and capability building programs. These programs can provide

valuable support to providers who identify business or financial issues through the reporting process. Further information is available at [Financial viability and capability support for aged care providers | Australian Government Department of Health, Disability and Ageing](#)

Quarterly Financial Report (QFR) Quarter 2, 2025-26

Who needs to complete a QFR

- If you are a Registered Provider delivering residential aged care and/or the Home Care Packages Program/Support at Home program, you are required to complete a QFR from Quarter 2, 2025-26 onwards.
- If you are a Registered Provider delivering MPSP and/or NATSIFAC, you are also required to complete a QFR from Quarter 2, 2025-26 onwards but will complete the food and nutrition reporting only.
- Each Registered Provider is required to complete one QFR each quarter.

QFR reporting requirements

- For the “YTD Financial Statements”, providers will report one form as a Registered Provider that covers the entire Quarter 2.
- Providers of the Home Care Packages Program which transition to the Support at Home program will be required to complete one form, that covers both one month of the Home Care Packages Program and two months of the Support at Home program. The form will be labelled as “Support at Home Labour Costs”.

The table below outlines reporting requirements in the QFR:

Form Name	Data Collection Level	Residential Aged Care	Home Care Packages/ Support at Home	MPSP	NATSIFAC
Viability and Prudential Compliance Questions*	Registered Provider	YES	YES	NO	NO
YTD Financial Statements*	Registered Provider	YES	YES	NO	NO

Form Name	Data Collection Level	Residential Aged Care	Home Care Packages/ Support at Home	MPSP	NATSIFAC
Residential Labour Costs and Hours	Service level	YES	NO	NO	NO
Support at Home Labour Costs	Program level	NO	COSTS ONLY	NO	NO
Food and Nutrition Costs	Service level	YES	NO	YES	YES

* Government providers of residential aged care and/or the Support at Home program are not required to complete the Viability and Prudential Compliance Questions or the YTD Financial Statements.

Changes to the QFR

- The QFR has been updated to align with the commencement of the new Act and Support at Home program.
- For all providers, these changes include:
 - Updated terminology and legislative references throughout the forms and Declaration File. For example, references to “Approved Provider” have been changed to “Registered Provider” and references to “Home Care” have been changed to “Support at Home”
 - With the introduction of the new Financial and Prudential Standards:
 - the existing residential and home care liquidity questions have been removed from the “Questions – Residential Care” and the “Questions – Support at Home” forms
 - the liquidity and capital adequacy ratio calculations have been removed from the “Year to Date financial statement”
- For providers of residential aged care, these changes include:
 - the removal of “Amortisation and Impairment of Bed Licences” expense item from the “Year to Date financial statement”, the removal of Bed Licences from the Intangible Assets definition and the renaming of “Available bed days” to “Operational bed days” throughout the QFR. These changes are resulting from the change to allocating residential aged care places directly to older people from 1 November 2025
- For providers of Home Care Packages Program/Support at Home program, these changes include:
 - The removal of the home care business structure question from the “Questions – Support at Home” form
 - The removal of Aged Care Planning Regions (ACPRs) from the “Support at Home Labour Costs” form, as ACPRs are no longer applicable under the new Act. Instead, providers will report financial information at the total Support at Home program level

- The removal of labour hours worked and non-worked hours reporting from the “Support at Home Labour Costs” form. Providers will only be required to report on labour costs by worker type and the lowest, average and highest wages rates in the QFR.
- The removal of gardening and maintenance from the Personal Care Workers definition in the “Support at Home Labour Costs” form. Costs related to these workers should be included in the “Other employee staff (employed in a direct care role)”
- Changes to all labour costs definitions to align reporting to the Support at Home service list

Use of Government Provider Management System (GPMS) to submit QFR

- Providers will continue using GPMS – Approved Provider Portal for submission of QFR Quarter 1 2025-26 and resubmissions of QFR Quarter 1 2025-26 and prior.
- Providers will use the new GPMS – Registered Provider Portal for submission of QFR Quarter 2 2025-26, under their new Registered Provider.
- For further assistance with changes to GPMS from 1 November 2025, please visit [Government Provider Management System \(GPMS\) | Australian Government Department of Health, Disability and Ageing](#)

Aged Care Financial Report 2025-26

Who needs to complete an ACFR

- If you are a Registered Provider delivering residential aged care and/or the Support at Home program, you are required to submit an ACFR for 2025-26.
- If you are a Registered Provider delivering MPSP, you will continue to complete the Annual Prudential Compliance Statement only in the ACFR 2025-26.
- Providers who delivered the Home Care Packages Program and/or STRC up until 31 October 2025, are still required to report information in the ACFR 2025-26.
- Each Registered Provider is required to complete one ACFR.

Reporting requirements

- For most forms within the ACFR, providers will report one form as a Registered Provider for the entire financial year.

The table below outlines the reporting requirements in the ACFR 2025-26:

Form Name	Data Collection Level	Residential Aged Care	Home Care Packages / Support at Home	MPS	STRC
Consolidated Segment Report*	Parent Entity or	YES	YES	NO	NO

General Purpose Financial Statements*	Registered Provider	YES	NO	NO	NO

* Government providers of residential aged care and/or the Support at Home program are not required to complete the Consolidated Segment Report, Registered Provider Reporting, Movement Schedules, Financial Support Statement or to publish their General Purpose Financial Statements.

- Providers who delivered services under the Home Care Packages Program and/or STRC up until 31 October 2025, must report income and expenses in the “Home Care Income and Expenditure Statement” and/or the “STRC Income and Expenditure Statement”.
- Providers who deliver the Support at Home program from 1 November 2025 must report income and expenses in a new “Support at Home Income and Expenditure Statement”.

- Providers will need to attribute income and expenses received or incurred to the relevant program.

The table below outlines the reporting requirements in the ACFR 2025-26 for providers of the Home Care Packages Program, STRC and Support at Home program:

Form Name	Data Collection Level	Pre-1 November 2025		Post-1 November 2025
		Home Care	STRC	Support at Home
Home Care Income and Expenditure Statement	Program level	YES	NO	NO
STRC Income and Expenditure Statement	Program level	NO	YES	NO
Support at Home Income and Expenditure Statement	Program level	NO	NO	YES

Changes to the ACFR

- The ACFR has been updated to align with the commencement of the new Act and Support at Home program.
- For all providers these changes include:
 - Updated terminology and legislative references throughout the forms and Declaration File. For example, references to “Approved Provider” have been changed to “Registered Provider” and references to “Home Care” have been changed to “Support at Home”
- For providers of residential aged care, these changes include:
 - The removal of “Amortisation and Impairment of Bed Licences” expense items, the removal of Bed Licences from the Intangible Assets definition and the renaming of “Available bed days” to “Operational bed days” throughout the ACFR. These changes are resulting from the move to allocating residential aged care places directly to older people from 1 November 2025
 - New, removed or amended data items in the “Residential Aged Care Home Income” and “Residential Aged Care Home Expenditure” forms
 - New “Higher Everyday Living Fee” and “Contribution to Hotelling Supplement” (Hotel Services Income)
 - New “RAD Retention Reduction” (Accommodation Income)
 - Addition of a question on how many residents were paying Higher Everyday Living Fees/Additional Service Fees/Extra Service Fees as at the end of the financial year

- Renaming of “Other Hotel Expenses” data items:
 - “Extra and additional service fee charges (non-agency)” to “Higher Everyday Living Fee/Additional Service Fee/Extra Service Fee – staffing costs (non-agency)”
 - “Extra and additional service fee charges (agency)” to “Higher Everyday Living Fee/Additional Service Fee/Extra Service Fee - consumables and contracting”
- Two data items have also been added to “other direct care expenses” for “staffing retention – travel costs” for both agency and non-agency, to capture travel related expenses for direct care staff that are paid for by the provider, such as transport to and from the provider’s accommodation and a residential aged care home
- Staff training costs are to be included as labour costs, which you will see in the updated definitions in a number of areas, including the Consolidated Segment Report and Residential Expenses form
- The inclusion of the question “As at the end of the financial year, how many residents are paying Higher Everyday Living Fees/Additional Service Fees”.
- A new Care Minutes Performance Statement (further guidance to be provided in due course)
- Amended Annual Prudential Compliance Statement and Permitted Uses Reconciliation (changes to be advised in due course following finalisation of the Financial and Prudential Standards)
- Additional and amended data items in the “Survey of Aged Care Homes” form
- For providers of the Home Care Packages Program these changes include the removal of Aged Care Planning Regions from the “Home Care Income and Expenditure Statement”. Instead, providers will report financial information at the total Home Care Packages Program level.
- For providers of STRC there are no changes.
- For providers of the Support at Home program there is a new “Support at Home Income and Expenditure Statement” that aligns income and expense reporting to the Support at Home Service List.

Use of Forms Administration portal to submit ACFR

- Providers will continue using the [Forms Administration portal](#) to submit the ACFR 2025-26.

Support at Home financial reporting QFR vs ACFR

There are differences in the way that providers of Support at Home will report their financial information in the QFR and ACFR in 2025-26.

The new “Support at Home Income and Expenditure Statement” in the ACFR has been designed to align income and expense reporting with the Support at Home Service List categories.

Income reporting

QFR

- There is no detailed income information reported in the QFR.

ACFR

- Income reporting in the ACFR aligns with the Support at Home Service participant contribution categories:
 - Clinical Support Services
 - Independence Support Services
 - Everyday Living Services
 - Restorative Care Pathway
 - End of Life Pathway
 - Assistive Technology and Home Modifications Scheme.
- There is a separate line item for income from Participant Top-ups and Private Clients.
- Grants such as the Support at Home Thin Markets grant (rural, remote and specialised) are to be reported as Other Income.
- Income reporting is at the total program level, reporting by Aged Care Planning Regions is not required.

Expense reporting

QFR

- Expense reporting in the QFR is primarily for labour costs and will continue to reflect labour cost reporting by worker type (Registered Nurse, Enrolled Nurse, Personal Care Worker, allied health, other), which has been previously used for Home Care Packages reporting.
- The QFR labour costs definitions have been updated to align reporting to the Support at Home service list (see table below).
- Reporting is at the total Support at Home program level.

ACFR

- The ACFR includes detailed expense reporting for care (including labour and non-labour costs) and administration and support. Care expense reporting aligns with the Support at Home Service List.
- There is a new expense item for “Employee superannuation and on-costs” under Administration and Support.
- There is a new expense item under “Other expenses” for “Participant top-ups and Private Clients”.

- Care management labour costs are to be split by those undertaken by clinical staff and those undertaken by non-clinical staff.
- More granular reporting of allied health expense items is required for six categories:
 - Physiotherapist
 - Occupational therapist
 - Speech pathologist
 - Podiatrist
 - Dietetic care
 - Other allied health
- Reporting is at the total Support at Home program level.

Labour Hours reporting

QFR

- There is no labour hours reporting in the QFR.

ACFR

- Labour hours reporting includes direct care, care management, administration and support and non-worked hours.
- Labour hours reporting for direct care is aligned to the Support at Home Service List. This reporting is only for internal direct care – employee care staff and is not required for agency or brokered care staff.
- Care management labour hours are to be split by those undertaken by clinical staff and those undertaken by non-clinical staff.
- Non-worked hours reporting is only for internal direct care – employee care staff for leave and training.

Difference in financial reporting for Support at Home in QFR and ACFR

- An example of the structure of the QFR Quarter 2 Support at Home Labour Costs form and ACFR Support at Home Income and Expenditure Statement can be found below.
- There are differences in what costs are included in the definition of labour costs in the QFR vs the ACFR. See below for an example of Support at Home labour costs and hours reporting QFR vs ACFR
- You are encouraged to review the QFR and ACFR non-uploadable templates and definitions in more detail, which are available on the department's webpage.
- In future financial years, financial reporting for providers of Support at Home will be aligned between the two reports.
