

You have choices for

# cervical screening

Asha chose  
to self-swab  
with help from  
her nurse

# Did you know cervical cancer is preventable?

Early detection through routine screening could save your life.

Women and people with a cervix aged 25–74 should have a **Cervical Screening Test** every 5 years.

Karen

Your doctor can do the test, or you can do it yourself using a simple swab.

Nishi

It's your Cervical Screening Test. **Own It.**

Talk to your doctor next time you're due.

NATIONAL  
**CERVICAL SCREENING**  
PROGRAM

A joint Australian, State and Territory Government Program
