

Conformance status tracker

Electronic National Residential Medication Charts (eNRMC)

Electronic prescribing capability for residential aged care

The Department of Health, Disability and Ageing and the Australian Digital Health Agency (Agency) are working with eNRMC software vendors to ensure conformant eNRMC systems with electronic prescribing capability become available from October 2025.

The eNRMC Transitional Arrangement is ending soon. This fact sheet outlines the current status of eNRMC products and their conformance with legislative and technical requirements for electronic prescribing under the Pharmaceutical Benefits Scheme (PBS and Repatriation PBS (RPBS)).

Until 31 December 2026, three types of eNRMC systems may be in use across Australia.

This fact sheet is designed to help:

- **Pharmacists** identify which systems support legal dispensing without a separate prescription.
- **Prescribers** understand which systems allow direct electronic prescribing from the chart.
- **Residential Aged Care Homes (RACHs)** plan for system upgrades and compliance.

NOTE: This document will be updated regularly as new eNRMC products achieve conformance with the legislative and technical requirements of electronic prescribing.

See the following pages for the **three eNRMC product trackers**.

eNRM product trackers

1. Transitional eNRM products from 2022 to 1 December 2025

The products in this table:

- are based on the Agency's [Electronic Prescribing – Transitional eNRM Conformance Register](#) as at 20 October 2025
- meet the legislative and technical requirements to operate under the temporary Transitional Arrangement between 2022 and 1 December 2025.
- can be used for legal PBS and RPBS prescribing and dispensing without a paper prescription between 2022 and 1 December 2025
- do not connect to the National Prescription Delivery Service or generate QR codes or tokens for pharmacy dispensing.

Table 1: Transitional eNRM products (2022 to 31 December 2026)*

Product name	Software Vendor	Software Version	Conformance start date	Conformance end date
Acredia Care	Acredia Pty Ltd	1.0	16/08/2022	31/12/2026
BESTMED Medication Management	Best Health Solutions Pty Ltd	2.2	22/06/2022	31/12/2026
emma	Compact Business Systems Australia	1.4	22/06/2022	31/12/2026
HealthStream	Medication Packaging Systems (MPS)	2022.6	11/08/2022	31/12/2026
Leecare P6Med	LeeCare Solutions	22.05	24/08/2022	31/12/2026
Medi-Map Medication Management	Medi-Map Group Pty Ltd	17.8	15/09/2022	31/12/2026
Medpoint	Telstra Health Pty Ltd	1.1	19/07/2022	01/12/2025
SimpleMed Electronic Medication Management System	SimpleMed	1.0.1.0	20/12/2022	31/12/2026
StrongCare	Strong Room Technology Pty Ltd	1.0	30/11/2022	01/12/2025
Webstercare MedCare	Webstercare - Manrex	2.0	13/07/2022	31/12/2026

* Based on conformance status as of 20/10/2025

2. Transitional eNRMC products from October 2025 to 31 December 2026

The products in this table:

- have a more recent conformant version approved by the Agency by 1 December 2025 (see Table 3)
- meet the legislative and technical requirements to operate under the temporary Transitional Arrangement between 2022 and 31 December 2026
- can be used for legal PBS and RPBS prescribing and dispensing without a paper prescription between 2022 and 31 December 2026
- do not connect to the National Prescription Delivery Service or generate QR codes or tokens for pharmacy dispensing.

Table 2 is based on whether the products is listed on the Agency's [Electronic Prescribing – Transitional eNRMC Conformance Register](#), and has an approved conformant version listed on the Agency's [Electronic Prescribing – External Conformance Register](#).

Table 2: Transitional eNRMC products from 1 October 2025 to 31 December 2026

Product name	Software Vendor	Software version	Conformance start date	Conformance end date
Acredia Care	Acredia Pty Ltd	1.0	01/10/2025	31/12/2026
BESTMED Medication Management	Best Health Solutions Pty Ltd	2.2	25/08/2025	31/12/2026
emma	Compact Business Systems Australia	1.4	17/10/2025	31/12/2026
HealthStream	Medication Packaging Systems (MPS)	2022.6	01/10/2025	31/12/2026
Leecare P6Med	LeeCare Solutions	22.05	19/08/2025	31/12/2026
Medi-Map Medication Management	Medi-Map Group Pty Ltd	17.8	01/10/2025	31/12/2026
SimpleMed Electronic Medication Management System	SimpleMed	1.0.1.0	01/10/2025	31/12/2026
Webstercare	Webstercare- Manrex	2.0	12/09/2025	31/12/2026

3. Conformant eNRM products

The products in this table:

- have been approved by the Agency as conformant with the technical and legislative requirements for chart-based electronic prescribing
- have QR codes or tokens available for pharmacists to scan (either the whole chart of individual prescriptions)
- have prescriptions that function similarly to community-based electronic prescriptions using the National Prescription Delivery Service
- are expected to be adopted by RACHs in place of their Transitional eNRM systems version by 1 January 2027.

Table 3 is based on whether the products are listed on the [Agency's Electronic Prescribing – External Conformance Register](#).

Table 3: Conformant eNRM products

Product name	Software Vendor	Software Version	Conformance start date	Conformance end date
Acredia Axis	Acredia Pty Ltd	1.1	19/09/2025	Not applicable
BESTMED	Best Health Solutions Pty Ltd	2.42	25/08/2025	Not applicable
emma	Compact Business Systems Australia	1.6	17/10/2025	Not applicable
HealthStream	MPS Hold Co Pty Ltd	3.1.0	25/09/2025	Not applicable
P6Med	LeeCare Solutions	25.5.10.1	19/08/2025	Not applicable
MediMap	MediMap	3.2.2	22/09/2025	Not applicable
SimpleMed	SimpleMed	1.1.0.0	26/09/2025	Not applicable
Webstercare	Webstercare- Manrex	2.0	09/09/2025	Not applicable

Further information about eNRM

A range of targeted fact sheets about the [rollout of electronic prescribing and eNRM](#) for prescribers, pharmacists and RACHs can be found on our website.

We have also published a comprehensive [eNRM user resource](#) which brings together all the key information on using conformant eNRM systems.
