

Analytic Data: not for further distribution without clearance.
Medical Benefits Scheme (MBS)

Medicare Data Release Policy: This data has not been confidentialised and is provided for analytical purposes only. Under no circumstances is this data to be published or otherwise released in its present form. Release outside the Australian Government Department of Health requires the approval of the MBS Business Data Steward, who can be contacted at mbs@health.gov.au. Legislation including Section 70 of Part IV of the Crimes Act 1914 creates a general offence for the disclosure of any information which officers have a duty of care not to disclose.

1. Column totals may not exactly reflect the accumulated values of the row figures due to the application of rounding

2. Date of Service reports will change over time as lagged claims are added to the baseline data.

3. Meaningful statistics by date of service for a given period will not be available until three to six months after the end of that period due to the lag in submitting the claim to Medicare for processing.

4. Care should be exercised in interpreting period on period movements in utilisation due to the seasonal nature of certain types of services.

5. The timing of Easter and other public holidays each year can affect interpretation of movement in utilisation of services. Working days can be used to adjust MBS statistics when comparing utilisation across time periods.

6. A patient's enrolment postcode is converted to other geographical regions using ABS developed correspondences that mathematically reassign postcodes to other geographic regions.
