If approved, a participant can then access additional funding (up to \$6,000) to provide a combined total of up to \$12,000 for restorative care.

³ The End-of-Life Pathway supports participants who have 3 months or less to live and wish to remain at home, by providing more funding to access in-home aged care services. A total of \$25,000 is available per eligible participant over a 12-week period.
