

Aged Care Subsidies and Supplements – Residential Care

(Rates of payments effective at 1 November 2025)

Residential Aged Care Subsidies and Supplements

Note: Modified Monash Model (MMM) classifications within this document are based on the [2023 MMM classifications](#). Australian National Aged Care Classification (AN-ACC).

Australian National Aged Care Classification (AN-ACC)

The AN-ACC national efficient price is **\$295.64**.

The AN-ACC funding model is the mechanism through which Government funds providers to deliver an average of 215 care minutes per resident per day, which became mandatory from 1 October 2024.

From 1 October 2025, the AN-ACC price incorporates an amount to support appropriate management of communicable diseases, such as COVID-19, in residential aged care settings, replacing the Outbreak Management Support Supplement which ceased on 30 September 2025. The AN-ACC care funding model for permanent care recipients has **three** components:

- a variable component based on the care recipient's AN-ACC classification.
- a fixed component (Base Care Tariff or BCT) to account for shared costs across all residents which vary by location and type of provider.
- the initial entry adjustment, a one-off adjustment payment for new residents.

The AN-ACC care funding model for respite care recipients has **two** components:

- a variable component based on the care recipient's respite classification.
- the AN-ACC fixed component or BCT reflects the characteristics of the home (the BCT is the same for respite residents and permanent residents in the same home).

Residential Aged Care Subsidy

These rates are applicable from 1 October 2025

1. Variable Component (classification funding) – permanent care recipients

AN-ACC Class	Resident description	NWAU	AN-ACC Class Variable Component funding (NWAU x Price)
Class 1	Admit for palliative care	0.73	\$215.82
Class 2	Independent without compounding factors	0.21	\$62.08
Class 3	Independent with compounding factors	0.40	\$118.26
Class 4	Assisted mobility, high cognition, without compounding factors	0.29	\$85.74
Class 5	Assisted mobility, high cognition, with compounding factors	0.43	\$127.13
Class 6	Assisted mobility, medium cognition, without compounding factors	0.39	\$115.30

AN-ACC Class	Resident description	NWAU	AN-ACC Class Variable Component funding (NWAU x Price)
Class 7	Assisted mobility, medium cognition, with compounding factors	0.54	\$159.65
Class 8	Assisted mobility, low cognition	0.60	\$177.38
Class 9	Not mobile, higher function, without compounding factors	0.53	\$156.69
Class 10	Not mobile, higher function, with compounding factors	0.59	\$174.43
Class 11	Not mobile, lower function, lower pressure sore risk	0.68	\$201.04
Class 12	Not mobile, lower function, higher pressure sore risk, without compounding factors	0.66	\$195.12
Class 13	Not mobile, lower function, higher pressure sore risk, with compounding factors	0.73	\$215.82
Class 98	Default class for residents entering for permanent care to receive palliative care	0.73	\$215.82
Class 99	Default class for residents entering for permanent care (other than entry for palliative care)	0.60	\$177.38

2. Variable component (classification funding) – respite care recipients

Respite Class	Services Australia Payment Statement code	Resident description	NWAU	Respite Class Variable Component Funding (NWAU x price)
Respite Class 1	Variable subsidy – class 101	Independently mobile	0.405	\$119.73
Respite Class 2	Variable subsidy – class 102	Assisted mobility	0.574	\$169.70
Respite Class 3	Variable subsidy – class 103	Not mobile	0.714	\$211.09
Class 100	Variable subsidy – class 100	Default class for residents entering for respite care	0.574	\$169.70

3. Fixed component (Base Care Tariff or BCT) for homes where funding is calculated based on occupied places – both permanent and respite care recipients

BCT Category	Services Australia Payment Statement code	NWAU	Funding Basis	Funding per occupied place
Standard MM 1	Fixed subsidy – class 6	0.50	Occupied places	\$147.82
Standard MM 2-3	Fixed subsidy – class 4	0.53	Occupied places	\$156.69
Standard MM 4-5	Fixed subsidy – class 7	0.58	Occupied places	\$171.47
Specialised homeless	Fixed subsidy – class 5	0.92	Occupied places	\$271.99

Specific eligibility criteria apply to homes that are determined by the Secretary to specialise in caring for homeless care recipients.

4. Fixed component (Base Care Tariff or BCT) for homes where funding is calculated based on operational places

BCT Category	Services Australia Payment Statement code	NWAU	Funding Basis	Notional funding per operational place*
Standard MM 6 – 7	Fixed subsidy – class 3H Fixed subsidy – class 3L	0.68 for first 29 places 0.52 for places 30 and above	Operational places	\$201.04* \$153.73*
Specialised Aboriginal or Torres Strait Islander MM 6	Fixed subsidy – class 2	0.78	Operational places	\$230.60*
Specialised Aboriginal or Torres Strait Islander MM 7	Fixed subsidy – class 1	1.80	Operational places	\$532.15*

* For homes in these categories, funding per-resident per day is calculated by first working out the total funding for the home for the day to the nearest cent and then dividing that total by the number of residents using this formula:

$$Price \times NWAU \times \frac{Operational\ Places}{Occupied\ Places}$$

Notional funding per “operational place” for calculating the home total uses three decimal places, to reduce rounding effects on the per-resident per day subsidy amounts. Services Australia payment statements report only the homes total for homes in these categories.

Specific eligibility criteria apply to homes in MM 6 and MM 7 locations that are determined by the Secretary to specialise in caring for Aboriginal or Torres Strait Islander care recipients.

5. Initial entry adjustment – permanent care recipients

The initial entry adjustment is a one off payment provided when a new permanent care recipient enters a home on or after 1 October 2022 to cover the costs associated with transitioning into a new care environment.

Initial entry adjustment	NWAU	Initial entry adjustment per new resident (NWAU x price)
Payable when a permanent care recipient enters a home	5.28	\$1,560.98

6. Respite supplement – respite care recipients

Respite supplement will be paid for respite care recipients. The rate of the respite supplement is equal to the maximum rate of accommodation supplement payable for eligible permanent care recipients in the same home (though without means testing or application of the 40% supported resident rule).
