# Medicare's got the bill for your next GP visit

Bulk billing lets you access free healthcare with your Medicare card when you need it.

Bulk billing means you don't pay anything when you see a GP, because Medicare covers the full cost of the service.

The Australian Government is providing more funding for bulk billing, and funding more general practices to offer bulk billing for every eligible patient – so finding a bulk billing GP is now even easier.

This could save you and your family hundreds of dollars a year in out-of-pocket costs.
