Hi s22

Please see the following attachments for National Stroke Foundation:

- Progress report
- Progress report assessment
- Evidence of Activity

If the progress report is satisfactory, please approve it along with a related payment of s47(1)(b) . There are no other reports due for this organisation within this reporting period.

Sincerely,

s22

Hi s22

Hope you are having a good morning, please see attached doc to assist in your letter.

I think the first couple of pages should provide what you need.

It is the successful application for the research grant.

FYI, the trialists are getting pretty close to the recruitment phase. They have our list and are going to set up a special email address for more recruitment. When I have more I will send it through,

Let me know if I can provide any additional info.

Our CEO s47F is meeting with Masha on Friday, are you heading along too?

Subject: ADVISORY: Successful return to life, return to work grant recipients

Hi s22 and team,

I am writing to let you know we have now confirmed the two successful applicants for the Return to work, Return to Life grant recipients.

Minister's office has also been advised, and with their permission we will be advising the successful and unsuccessful applicants on Monday 18 March.

The selected recipients are currently confidential.

- Professor Vincent Thijs, Florey Institute of Neuroscience and Mental Health

Perispinal Etanercept to improve Stroke Outcomes (PESTO)

Seeks to determine if perispinal etanercept improves quality of life in working age patients who have a history of stroke and moderate to severe disability. It will also investigate if repeated treatments lead to improved quality of life compared to one treatment.

s22

Let me know if you would like further detail on the specific projects – really exciting.

On Monday we will:

- Applicants notified by official letter/email.
- Key stakeholders notified of successful applicants.
- Media release and social media via Stroke Foundation's channels
- Website update.

From here, successful applications are subsequent to Australasian Stroke Trials Network approval. This may not be confirmed until June 2019. We will seek to do media around the trails at this stage.

Have a good weekend,

s47F
