Thea Connolly
 First Assistant Secretary
 Access and Home Support Division
 Department of Health and Aged Care

Your Reference: :MC24-005915

Dear Thea

I refer to your letter dated 16 Feb 2025. Firstly my apologies for the lateness of the reply as we are not monitoring the Future Fit Collective e-mails as well as we probably should.

Immediately after notification of the alleged copyright infringement by s47G [redacted] FFC immediately removed access to the software on GITHUB where it resides. The software remains locked and inaccessible on the GITHUB website and will remain so until we get directions from your department.

The software was live on the GITHUB website for a short period of time, possibly 2 weeks.

We are unaware of any downloaded copies, however s47G [redacted] brought their copyright claim shortly after the software was made public. s47G [redacted] may have viewed the software on the website, or may have downloaded a copy.

s47F [redacted] s47F [redacted], indicated in an on line meeting that the software running at Whitehorse was the s47G [redacted] software developed by Future Fit. My understanding is that this is supplied through a commercial arrangement with s47G [redacted].

We do not know if this is the departments GoSource software, entrusted to Future Fit Collective and registered as open source on the GIT HUB website.

We are currently planning to wind Future Fit Collective up as we no longer have a purpose for it.

We will maintain access to the GIT HUB account and the software and await your direction.

Thea, for any further correspondence please e-mail myself and 11C [redacted] on our work e-mails (above) as the Future fit domain name and company are being wound up. The Future Fit e-mail address will cease to exist later in March and is not being monitored.

11C [redacted]

Secretary
