Please do the test and return it as soon as possible

<FirstName>, this is a reminder to do your free bowel screening test.

If you have recently completed and returned your samples, please ignore this letter.

If you have lost the kit or need a free replacement, please request one at www.ncsr.gov.au/boweltest or call us on 1800 627 701.

Join millions of Australians who do the bowel screening test every 2 years

- Bowel cancer takes more lives than breast, skin or prostate cancer – with age the biggest risk factor.
- It can develop without symptoms or a family history of bowel cancer, so it's important you do the test even if you feel fit and healthy.
- If found early, over 90% of bowel cancer cases can be successfully treated.

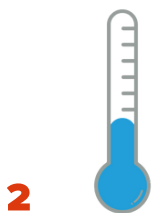

The test is quick, clean and easy to do

Everything you need is inside the kit, including detailed instructions.

1

Collect 2 tiny samples from 2 separate poos.

2

Store your samples somewhere cool. Do not freeze.

3

Post your samples back to us.

Scan this QR code to watch a video on how to do the test.

Your result will be mailed to you and your doctor 4 weeks after you send us your samples.

Don't forget to do the test – put this letter on the fridge and your kit near the toilet
