

Australian Immunisation Register – Influenza Data – 1 March to 23 August

Notes and Caveats

- All data is based on influenza vaccinations reported to the Australian Immunisation Register (AIR) as at COB 23 August 2026.
- Data is from 1 March to 23 August for each encounter year.
- Influenza vaccination data is not directly comparable across years due to a range of factors, including:
 - The impact of the COVID-19 pandemic and national and local responses to the pandemic over time
 - Early in the influenza season, the timing of seasonal events such as Easter
 - Timing of vaccines provided by pharmaceutical companies for clearance through the Therapeutic Goods Administration (TGA)
 - Supply of vaccines and commencement of flu season.
- Vaccinations where the person has since been 'End dated' in the Medicare Consumer Directory (due to death, emigration, etc) are included in the data.
- Data includes influenza vaccinations given to Medicare eligible and non-Medicare eligible individuals.
- The counted values represent a count of all vaccination episodes.
- A 'Vaccination episode' is linked to a State or Territory based on the vaccinated individual's Medicare residential address at the time of this report's creation.
- The sum of state totals may not match the national total due to suppression rules introduced to protect the privacy of individuals

Encounter Year	Jurisdiction	Total	Age			First Nations People	Provider types
