

IT STARTS WITH A SWISH

One small swish every 5 years could save your life.

You've got options for your next Cervical Screening Test — you can have a doctor, nurse or health worker take the sample, or you can do it yourself in a private space.

Yarn with your health worker about cervical screening and choose what feels right for you.

Visit health.gov.au/cervical-screening or scan the QR code to learn more.

NATIONAL
CERVICAL SCREENING
PROGRAM
A joint Australian, state and territory government program

Artwork and illustrations by proud Bundjalung and South Sea Islander woman Kimberly Engwicht.
