Dear << Name>>,

RESULT NOTIFICATION

Thank you for taking part in the National Bowel Cancer Screening Program by returning your samples for testing.

Your test result is 'POSITIVE'. This means blood was found in one or both of your samples.

There could be several reasons why blood was found, with most not related to cancer. It is important to find the cause of the bleeding. Please make an appointment to see your doctor as soon as possible to discuss your result.

If you nominated a doctor or medical practice on the form you sent with your samples, then your test result has also been sent to them.

Your doctor may advise you see a specialist doctor to have a procedure called a colonoscopy. Your doctor will give you information about the benefits and risks of colonoscopy and can answer any questions you have. Information is also provided in the enclosed brochure.

If you have any questions, visit **www.health.gov.au/nbcsp**. You can also call **1800 627 701** Monday to Friday, between 8.00am and 6pm (except public holidays).

Yours sincerely,
