

Influenza vaccination rates of aged care residents by facility – July 2026

Data sources and caveats

Sourced from AIR data as at 22 July 2026, residential aged care home (RACH) resident data uses a snapshot of residents present in permanent residential aged care as at 31 May 2026.

1. Resident influenza vaccination includes any influenza vaccination administered to a resident from 1 January 2026.

* It does not account for residents who are unwilling or clinically unsuitable to receive a vaccine

2. Total residents refers to all residents in Commonwealth funded positions in residential aged care homes.

3. For reporting accuracy, total resident population only includes residents who have linked with their vaccination records.

4. All homes with a resident count of less than 5 are flagged as 'Confidentially applied'.

5. All homes with equal to or less than 10 residents will have a larger vaccination banding applied.
