Subject: Confidential - Capped Out-Of-Pocket Pricing Model
Date: Monday, 19 January 2026 9:49:35 PM
Attachments: [image002.png](#)
Importance: High

Dear s22

As discussed earlier today, and consistent with our commitment to transparency with the Department of Health, we would like to share an overview of our new capped Out-of-Pocket Pricing Model, which is currently being piloted at one site for certain radiation therapy treatment courses.

This model has been independently assessed through both external and internal legal review, and we are confident it has been designed in a compliant and appropriate manner.

Rationale for Initiative

Uncertainty around out-of-pocket costs is a significant and ongoing challenge for cancer patients, driven by factors including variability in Medicare rebates, gap payments and the calendar-year nature of the Extended Medicare Safety Net, which can mean different cost outcomes depending on when treatment occurs.
