

Helping children develop, learn and grow

Thriving Kids

health.gov.au/thrivingkids

Every child learns and grows in their own way. Some may need extra support with their development.

If your child needs extra support communicating, learning, moving, interacting with others, or managing emotions, Thriving Kids can help.

Thriving Kids is an early intervention approach. It is a joint Australian, state and territory government initiative.

Getting support early can make a difference and Thriving Kids is an easy place to start.
