Thriving Kids

Factsheet for the workforce

Australian Government

**Department of Health,
Disability and Ageing**

The Australian Government Department of Health Disability and Ageing wrote this.

We say **DHDA** for short.

When you see the word **we** it means DHDA.

We wrote this in an easy to read way.

We use pictures to explain some ideas.

Bold

Not bold

We have some words in **bold**.

This means the letters are thicker and darker.

These are important words.

This is an Easy Read summary of another document.

This means it has the most important ideas.

We can answer any questions by email.

Email us thriving.kids@health.gov.au

You can ask for help to read this document.

You can ask

- A friend
- Family members
- A support person.

We recognise Aboriginal and Torres Strait Islander people as the **Traditional Owners** of the land we live on.

They were the **first people** to live on and use the

- Land
- Waters.

What is Thriving Kids

All governments are working together to make **Thriving Kids**.

That means the

- Australian Government
- State and territory governments.

Thriving Kids will have

- Some new supports
- Some supports now that will be expanded.

It will be **different** to the NDIS.

It will support children who

- Are 8 years old and younger
- Have **developmental delay**
- Have autism
- Need some support.

It will also support families and carers.

Development delays are when

- Someone might be slower to **develop** than other people their age.

They might need extra help with

- Talking
- Moving
- Their emotions.

Children who need lots of support can still **apply** for the NDIS.

Apply means you send information about

- Who you are
- Your disability
- What supports you need.

This helps us decide if you need NDIS supports.

How Thriving Kids will help

Getting support early can help children

- Get better at what they are good at

- Take part in their community

- Learn the skills they need for everyday life.

Support for children

Children learn in their own way.

Some children need more support for things like

- Talking

- Learning

- Connecting with others

- Dealing with emotions.

Children might need extra support to do these things.

Children do **not** need a **diagnosis** to get support.

Diagnosis means the way we work out if someone has a condition.

It is mostly done by medical workers.

Thriving Kids can help families find information and advice about

- Autism
- Developmental delay
- What support there may be to help families.

Who can support families

It is important for children to get support early.

You can share information about Thriving Kids with families that need support.

If you are a

- Nurse

- GP

- Paediatrician

This is a doctor for people under 18 years old.

You could be a

- **Allied health worker**

Allied health workers support people with their health.

- Work at a school

- Work at an **Early childhood education centre**

This means learning for children before they go to school.

If you are a

- **Social worker**

They help people get support and services.

- Community worker.

You can talk to families about
child development.

Child development is how a child grows and
learns over time.

Thriving Kids supports

Some Thriving Kids supports started in October 2026

More supports will start over time.

All supports will be ready by the start of 2028.

Some supports Thriving Kids are

- Online information and **resources**

Resources are information that tell someone a way to do something.

- Advice about
 - Child development
 - Autism

- Health and development checks

- **Peer support**

Peer support is when other families give each other support and advice.

- Parenting groups

- Supported playgroups

- **Family programs**

Family programs help parents and carers build their

- Skills
- Confidence

This will support their child's development

- Support from healthcare **professionals.**

Professionals are people who are trained to do a job like a doctor or teacher.

Where to go for Thriving Kids

If you are working with a family who

- Has questions about their child's development
- Are looking for information or support
