Thriving Kids

Helping children learn, develop and grow

health.gov.au/thrivingkids

Every child learns and grows in their own way. Some may need extra support with their development.

If you work with children, you can make a big difference in their lives by recognising developmental concerns and linking families with support early, when it has the biggest impact.

Thriving Kids is for families and their children aged 8 and under with developmental delay or autism who might need extra support.

Positive change starts early. By linking families with Thriving Kids, you can help give children the best start in life.
