# Making private health insurance simpler for everyone

The Australian Government has introduced reforms that will make private health insurance simpler and will help people choose the cover that best suits their needs.

Private health insurers have until 1 April 2020 to roll out the reforms.

If you already have private health insurance, your insurer will send you specific information about your policy.

### Four tiers of hospital cover

All private hospital cover will be classified as Gold, Silver, Bronze or Basic.

What is, and is not covered in these tiers will be based on new minimum standard clinical categories. See table on reverse for what is covered under each tier.

### Supporting mental health

Since 1 April 2018, patients with limited cover for mental health treatment have been able to upgrade their hospital cover to access higher benefits for these services without serving a waiting period.

Policy holders can use this exemption from the usual waiting period on a one off basis.

## Optional changes for private health insurers

### Ability to increase excess levels

Insurers can offer the choice to increase your excess in exchange for a lower premium.

The maximum excess for a policy is now being raised:

FOR SINGLES

\$500	\$ <mark>7</mark> 50	
FOR COUPLES & FAMILY POLICIES		
FROM	ТО	
\$1,000	\$ <b>1,500</b>	

#### Travel benefits

Travel and accommodation benefits can be offered as part of hospital cover to people who need to travel long distances to access specialised hospital treatment.

This will be particularly beneficial for people living in rural and regional areas.

### Discounts for 18 to 29 year olds

Insurers can offer people aged 18-29 discounts of up to 10 per cent off their private hospital premiums. The discount will gradually reduce after you turn 41.

### Stronger Ombudsman's powers

To better protect consumers, the Private Health Insurance Ombudsman's role has been expanded to improve its capacity to resolve complaints or issues raised by consumers about their private health insurer.

While the vast majority of complaints can be resolved by working with the insurer, the stronger powers will allow the Ombudsman to inspect and audit private health insurers to address complaints.
